REPORT

OF THE

COMPTROLLER OF THE CURRENCY.

TREASURY DEPARTMENT,
OFFICE OF THE COMPTROLLER OF THE CURRENCY,
Washington, December 4, 1922.

SIR: Pursuant to section No. 333 of the Revised Statutes, I have the honor to submit the Sixtieth Annual Report of the Comptroller of the Currency, dealing with the operations of this bureau for the year ended October 31, 1922.

I am glad to be able to report that, although the country has been passing through the period of liquidation and deflation following the war-time expansion, the national banking system has splendidly justified the confidence of the country, and, in general, the banking situation is good. There has been a decided improvement within the year covered by this report. Speaking broadly, it can be said that the developments of banking conditions within the year, and the present status, quite generally reflect the agricultural conditions of the country. The most difficult banking situations which we now have to deal with are in those regions which have suffered agriculturally by reason of drought, of inauspicious conditions in the live-stock industry, by reason of inadequate transportation to move products, or other circumstances which have worked to the injury of the farming community. The areas which have been thus unfortunate represent a very small proportion of the entire country. The outlook for a continuing improvement in the agricultural situation, based on increased demands for the farmers' products, both at home and abroad, and the consequent improvement in prices, finds immediate reflection in a more cheerful banking outlook.

The Federal reserve system has continued a sound and sure reliance, and its operations as the great stabilizing and mobilizing factor in the financial structure of the Nation have further justified the confidence we have learned to repose in it. This system has been, and should continue to be, the backbone of the Nation's financial structure. This is of such transcending importance that I can not feel that my full duty in connection with the present report would be performed should I omit a warning in regard to some influences which are at work, inevitably tending to the disintegration, or at least the progressive weakening, of the Federal reserve system. Membership in this system involves, under the present development of the law, some handicaps and restrictions upon the operation of national banks which are plainly tending to restrict the growth and virility of the national banking system, and therefore of the Federal

reserve structure. It is desirable, indeed necessary, to bring into the Federal reserve system the largest possible proportion of the banking power of the country. National banks are required to be members of the Federal reserve system, and they must inevitably constitute the real foundation of that structure. Anything which tends to make a national bank charter less attractive for a financial institution, than a State charter, will of course tend to discourage banks from taking or retaining national charters and thereby making themselves contributors to that great cooperation which is represented by the Federal reserve organization.

At this point a situation is presented which must be looked squarely in the face and dealt with in complete frankness. National banks are compelled to compete with State institutions, and if the laws of the States are more liberal than are the national banking laws they will constitute an inducement to banks to operate under the laws of the States rather than of the Nation. The very fact that the Federal reserve system establishes a measure of financial assurance, a concentration of reserves, and an elasticity of the currency, which operate to the advantage of all kinds of banks, whether State or national, makes it easier for State banks to carry on under the more liberal charters which many States issue. So long as all banks enjoy the general advantages accruing from the workings of the Federal reserve system, there is obvious temptation to the particular institution to supplement these benefits by taking advantage of the wider liberality of State charters. But it is apparent that if all banks should yield to this temptation the maintenance of the Federal reserve system would at length be impossible; and just in proportion as an increasing number of banks prefer the State to the national charter, the aggregate power, security, and responsibility of the Federal reserve system must be diminished.

In short, if the Federal reserve system is to be perpetuated and maintained in the strength and authority which are desirable, there must be national banks in sufficient number and strength. And if national banks are to be assured in such numbers, they must be given charters liberal enough to constitute inducement to remain in the system.

All this seems so plain that the statement of it may appear unnecessary. But we have reached the time in the competition between the State banks and the National banks when it is obvious that in many States there is a decided tendency away from the national and toward the State forms of charter. This is so, of course, because frequently the State laws offer inducements, privileges, and facilities for doing business that are not made available to national banks. In recent time the advantage of the more liberal conditions that can be enjoyed outside the national banking system—in some cases, it must be said, at the sacrifice of sound banking methods—has become so widely recognized in certain States, that it is now necessary in the most earnest terms to call attention to it, and to sound a warning that if it shall continue, it will presently become a menace to the strength, and may ultimately threaten the very existence, of the Federal reserve system.

The Congress in framing the Federal reserve act frankly recognized that in many cases State charters would be more attractive; and therefore, as an inducement to State banks to become members of

the Federal reserve system, wrote into the law (sec. 9) the following provision:

Subject to the provisions of this act, and to the regulations of the board made pursuant hereto, any bank becoming a member of the Federal reserve system shall retain its full charter and statutory rights as a State bank or trust company, and may continue to exercise all corporate powers granted it by the State in which it was created, and shall be entitled to all privileges of member banks. * * *

The practical difficulty is that in actual experience it has been found that the great majority of State banks do not accept the invitation to become members of the Federal reserve system, but that, on the other hand, there is a tendency among the national banks of some States to leave the national system and take State charters. Only about 1,600 State institutions have thus far joined the Federal reserve system, while more than 20,000 such institutions have remained outside. Competition is vigorous and constant among banks, and the institution with the most liberal charter has distinct advantages.

It should be the constant aim to preserve to the national banking system the repute it has earned during its 60 years of existence, of being the great repository of the country's banking security and strength. On the other hand, so far as possible, consistent with an unqualified loyalty to this purpose, we should seek to grant the utmost liberality to the national banks, in order, while keeping the system absolutely sound, to allow it to perform all the functions that good banking practice permits. Only by such a policy of liberality coupled with fullest security, will we be able to keep within the Federal reserve system that dominating share of the banking resources which it must have if it shall continue as the citadel of the financial establishment. It has never been so clear as it is in the world-wide disturbances of to-day, that this ultimate reservoir of financial power and reserves must be kept in the control of the National Government, rather than that it be dissipated through the varying policies of many States. We must seek to afford to our national banks every tested and sound facility, while always clinging to the ideal of complete security. But in a time, like the present, when extraordinary burdens are being imposed on the public finance of the country, we must maintain a truly national unification in organization, aims, and policy.

This persistent competition between State and national types of organization is no new thing. It existed long before the Federal reserve system was created, and it was repeatedly recognized by the Congress, which enacted many amendments to the original national banking act, for the general purpose of liberalizing it and enabling national banks to meet the competition of State institutions. To cite a few of these liberalizing amendments, it may be said that the national banking system was barely two years old when a law was passed providing that State banks, being converted into national banks, might retain and keep in operation the branches which they had previously established. This amendment was necessary in order to induce a large number of State banks, which had established branches, to enter the national system. Yet, on the point of establishing branches for a national bank originally organized as such, the law granted no affirmative authority to create branches or additional offices, and for many years this was construed as in effect a prohibition against branches or additional offices.

Again, Congress has amended the national bank law so as to permit loans on real estate; this being necessary because the State banks were permitted to loan on such security. Many other illustrations might be cited, but it is not necessary.

The time has now come, in this process of developing relations between national and State institutions, when it is necessary to give attention to the matter of branch banks, or additional banking offices or agencies. State banks are permitted in 22 States to establish branches, offices, or agencies. This authority is of the utmost value to banks which enjoy it. In some States it, together with other privileges accorded to state banks, is having a positively alarming tendency to keep banking capital and organizations out of the national and in the State systems. For instance, in Detroit there are only 3 national banks, and only 1 additional office of a national bank; but there are 14 State banks, with 189 branch offices. In Cleveland there are only 3 national banks, with only 2 additional offices of such banks; but there are 18 State banks with 75 branches or agencies. In Buffalo there are only 4 national banks, and only 1 additional office of a national bank; but there are 12 State banks, with 40 branches. In New Orleans there is to-day only 1 national bank; but there are 9 State banks, with 36 branches. Similarly impressive figures could be quoted for many other important cities; and the inescapable conclusion from them is that national banks can not compete, under present-day conditions, unless they have privileges, as regards additional banking offices, substantially similar to those enjoyed by State institutions.

To put the whole matter in a nutshell, we are in grave danger of losing our larger national banks in States where more liberal charters are granted to State banks unless we extend to national banks the privileges and facilities in carrying on their business that are accorded to State banks. If we lose the national banks, we disintegrate the Federal reserve system, for experience has shown that only a small proportion of State banks will enter the system. Moreover, the State banks may withdraw from the Federal reserve system on six months' notice, while the national banks must liquidate in order to withdraw from the system.

In view of this situation, the present administration of the comptroller's office has declined to hold that a national bank may not open additional offices in the city in which established. Nevertheless, it is deemed highly important that the whole matter be removed from the realm of possible uncertainty or controversy, and therefore it is most earnestly recommended that Congress pass an amendment to the national banking law granting to national banks, within the discretion of the Comptroller, the privileges enjoyed in each State by its State banks. The bill H. R. 12415, now pending, represents the general view of this bureau.

In this same connection, it is recommended, once more, that national banks should be permitted to take out perpetual charters. Under the act of July 1, 1922, 99-year charters have been issued to all national banks.

The present administration of the comptroller's office urged legislation reducing the minimum number of bank calls per annum from five to three; and this legislation has been enacted. On the other hand, the examining force of the bureau has for the first year

in its history made two examinations of every national bank. In addition, it must be stated that many hundreds of special examinations have been made. The force of examiners, throughout a year which was marked by many difficulties and an unusual burden of exacting duties, has deserved the highest commendation for faithfulness, sound discretion, absolute reliability, and devotion to exacting duties. It is a pleasure to record this appreciation of so able and efficient an organization, and to add that the best testimony to the high quality and character of the examining force is found in the fact that the bureau has constant difficulty in retaining the services of its skilled examiners because their special qualifications constantly appeal to the best banks, which are continually drafting them away from the bureau at greatly advanced compensation.

LEGISLATION ENACTED AND RECOMMENDED RELATING TO NATIONAL BANKS.

In connection with recommendations of the comptroller relating to amendments of the national banking law, the present Congress has passed three measures, the first, approved on March 1, 1921, relating to the qualification of directors of national banking associations, the second, on July 1, 1922, amending section 5136, Revised Statutes, to provide that national banking associations shall have succession for the period of 99 years, reference to which is made in extenso elsewhere in this report, and the third, on December 28, 1922, amending section 5211, Revised Statutes, to provide for not less than three reports each year instead of five.

It is again recommended that favorable consideration be given to further amendment of section 5136, to confer upon national banks perpetual succession in lieu of the present limitation of 99 years as was provided by the act passed by the House of Representatives and unanimously recommended by the Senate Committee on Banking and Currency at the second session of the present Congress.

To amend the act approved November 7, 1918, providing for the consolidation of national banking associations, to permit consolidation of State and national banks under the same terms and conditions as provided for the consolidation of national banks.

To amend the third paragraph of section 5134 so that it will read as follows: "Second. The place or places within the city, town, or village in which the association is organized, where its operations of discount and deposit are to be carried on, designating the State, Territory, or district, and the particular county and city, town or village."

To amend section 5209, prescribing penalties for embezzlement, etc., to make its provisions applicable to national bank examiners, assistants and clerks, for embezzlement, etc., of funds intrusted to or funds coming into their possession while making an examination of a bank.

To amend section 5145, relating to the election of and management by directors of national banking associations, to require directors to make written report to shareholders at annual election meetings, the report to show the assets and liabilities in detail, profit and loss, salaries paid officers and employees, together with a statement of operating expenses for the year.

To amend section 5240 to confer authority upon the Comptroller of the Currency to appoint additional examiners and assistants to

examiners to be assigned to the office of the Comptroller of the Currency to aid in the examination and correspondence connected with the examination of national banks; the compensation of such employees to be defrayed from the fund provided for the compensation of national bank examiners generally.

To amend section 5138 to require an increase in capital of national banks commensurate with an increase in deposit liabilities.

To amend section 5222 so that the first sentence shall read "Within 30 days from the date of the vote to go into liquidation, the association shall deposit with the Treasurer of the United States lawful money of the United States to redeem all its outstanding circulation."

To amend section 5147 to require the oath of a director of a national bank to be taken before a notary public or other officer authorized to administer oaths, and to be filed with the comptroller within 30 days succeeding his election or appointment, and making any director who becomes disqualified by hypothecation of stock ineligible to reappointment during the remainder of the year.

To authorize the comptroller to institute proceedings through the Department of Justice against directors for losses sustained by banks through violations of the law.

The following additional amendments are recommended for the consideration of Congress:

Amend section 5169, relating to the issuance of authority to a national banking association to begin the business of banking, to provide that in case any national bank shall fail to begin business for a period of six months from date of issuance of the comptroller's authority to begin business, the comptroller may send an examiner to the bank who shall have authority to call a special meeting, upon due notice, of the shareholders for the purpose of adopting a resolution placing the bank in voluntary liquidation, and provide that if the shareholders fail to take such action or open the bank for business within 30 days after such notice, the comptroller may appoint a receiver for the purpose of winding up its affairs; the expense of the examination to be borne by the bank in question.

To amend section 5220 to provide that if any national bank shall have disposed of all its assets or closed its doors and shall refuse or neglect to formally place the association in voluntary liquidation within 30 days thereafter, the comptroller shall have authority to send an examiner to the bank with instructions to call a special meeting of shareholders, upon due notice, for the purpose of adopting a resolution placing the association in voluntary liquidation, and that if the shareholders shall refuse to adopt such resolution the comptroller may appoint a receiver for the purpose of winding up its affairs.

It is further recommended that this section be amended to provide that when any national banking association is placed in voluntary liquidation it shall continue to hold annual meetings of shareholders in the manner and on the date specified in the articles of association and to elect directors and appoint officers in the same manner as if it were in active operation. The law should also provide that the directors shall have charge of the liquidation of the bank and that the president or cashier shall act as executive officer in liquidating the affairs of the bank under the direction of the board of directors. It is also recommended that the law be amended to provide that every association placed in voluntary liquidation shall be required

to render reports of condition in the manner provided by section 5211, United States Revised Statutes, and that in addition thereto the officers of such association shall file with the Comptroller of the Currency a report covering the receipts and disbursements during the preceding year, a copy of such report to be submitted to the stockholders at their annual meeting in January of each year. Upon the Comptroller of the Currency should be conferred authority to make an examination of any national bank in voluntary liquidation, the expense thereof to be paid by the liquidating bank. In the event of sale of the assets of a liquidating association to another bank, State or national, and the assumption of liabilities of the liquidating association, a contract shall be entered into between the directors of the associations interested, and a copy of such contract, duly signed by the officers of the associations and acknowledged before a notary public or other officer authorized to administer oaths, filed with the Comptroller of the Currency.

When the affairs of any liquidating national banking association are finally closed, uncollected assets shall be advertised for a period of 15 days in a local paper and sold to the highest bidder. All unclaimed dividends belonging to shareholders and unclaimed deposits shall be transmitted to the Comptroller of the Currency for deposit with the Treasurer of the United States in trust and carried as a special fund to be known as "liquidating account, national banking associations" and the claimants entitled to such dividends or deposits may subsequently receive the same upon furnishing to the Comptroller of the Currency satisfactory proof of the validity of their claim thereto.

To amend section 5138 relating to the required capital stock of a national banking association, to provide that with the approval of the Comptroller of the Currency a national bank with capital of not less than \$50,000 may be organized in the suburbs of a city where the demand for banking capital would not warrant the organization of a bank with the capital required for the organization of a bank in the business section of the city.

To provide by law for the punishment of the offense of uttering false statements derogatory to the condition or standing of any national bank or any other banking institution which is subject to the supervision of the Comptroller of the Currency. On April 13, 1922, a bill, H. R. 11296, was introduced, referred to the Committee on the Judiciary, and ordered to be printed. The provisions of this bill meet with the approval of the department.

NATIONAL BANK CHARTERS.

The act of February 25, 1863, authorizing the establishment of the national banking system, provided that every association formed pursuant to that act should "have succession" for the period named in the articles of association, not, however, exceeding 20 years from the passage of the act. This act was repealed and a revised banking law enacted June 3, 1864, providing, among other things, that every association "shall have succession for the period of 20 years from its organization."

Under the act of 1863 charters were issued to some 456 associations, of which 54 were organized for less than 20 years, and in consequence

expired by limitation prior to July, 1882. Such of these banks as were in existence and desired to continue in business were compelled to reorganize, as it was not until July 12, 1882, that the act was passed authorizing extensions of charters of banks which had reached the close of their corporate existence. This act provided for the extension of the "period of succession" for a term of not more than 20 years from the expiration of the period named in the bank's articles of association.

To effect extension it was necessary for each association, first, to secure the written consent of shareholders owning two-thirds of the stock, the board of directors to cause such consent to be certified to the Comptroller of the Currency under seal of the association, by the president or cashier; second, to have a special examination to determine the condition of the bank, approval of the extension being contingent upon the bank's condition at that time; third, to permit dissenting shareholders to withdraw, and receive the value of their shares; fourth, to require that circulating notes issued subsequent to extension should "bear such device as shall make them readily distinguishable" from circulating notes theretofore issued, and further require at the end of three years from extension a deposit of lawful money to provide for the redemption of all notes issued prior to extension and outstanding at the end of this three-year period.

In 1902 many national banks rounded out their second period of succession, and on April 12 of that year an act was approved authorizing, for an additional period of 20 years, the extension of the charters of all banks which had been extended under the act of 1882 in the same manner provided in the act granting the first extension.

Whatever may have been the motive actuating Congress in requiring that circulating notes issued by the banks subsequent to the extension of their charters (under the acts of 1882 and 1902) should be of designs distinguishing them from prior issues, experience developed the fact that this requirement resulted in an unnecessary and enormous expense both to the banks and to the Government—to the banks in the cost of new plates and to the Government in the cost of distinctive paper and in the printing of the notes. Between July 12, 1882, and June 30, 1922, the charters of 4,333 associations were extended under the act of 1882 and 1,512 were extended for the second period of 20 years under the act of 1902. The expense to the banks for the plates for the new designs of notes was approximately \$1,000,000 and to the Government for paper, printing, etc., about \$500,000.

At various times the Comptrollers of the Currency recommended the repeal of the law providing for new designs for the notes issued under these conditions, but no consideration was given to the question until it was formally brought to the attention of the Committees on Banking and Currency of the present Congress.

In his annual report to Congress in December, 1921, the Comptroller of the Currency submitted for consideration two bills. One provided for the extension of the charters, for an additional period of 20 years, of banks whose charters had been extended under both the act of 1882 and the act of 1902, and in the manner provided by the act of 1882, except that shareholders were to be accorded the option of giving their written consent or their vote to extend at a meeting called to consider the question. Provision was also made in

the bill for the repeal of the law requiring new plates for the printing of notes after the extension of the charter.

The alternative bill and the one that was recommended by the comptroller granted national banking associations perpetual succession. This bill conferred upon the shareholders of any bank the privilege of withdrawing within 30 days after the termination of 20 years of its existence, that is, 20 years from the date of the last extension of its charter.

The House passed the bill granting banks perpetual succession, but the Senate amended the bill by fixing 99 years as the period of succession. In conference the Senate amendment was agreed to, the House accepted the report of the conferees, and the bill, as amended, was approved by the President on July 1, 1922. The act repeals all laws or parts of laws relating to extension for a period of 20 years, and amends the second section of section 5136, United States Revised Statutes, relating to the corporate powers of national banks, to read as follows:

SEC. 2. That all acts or parts of acts providing for the extension of the period of succession of national banking associations for twenty years are hereby repealed, and the provisions of paragraph second of section 5136, Revised Statutes, as herein amended shall apply to all national banking associations now organized and operating under any law of the United States.

As is apparent, the law automatically extended for 99 years the period of succession of all banks organized and operating on July 1, 1922, and granted to all banks organized after that date succession for 99 years from date of organization. It will also be noted that the act makes no provision for the withdrawal of shareholders as was provided in the extension acts of 1882 and 1902.

As national banks having the required capital and surplus located in States the laws of which permit the exercise of fiduciary powers by State financial institutions may be permitted to exercise such powers, and as trusts are often in perpetuity or for very long periods, it follows that banks having perpetual succession can most satisfactorily accept such trusts. This was the principal reason actuating the comptroller in urging favorable consideration of the bill for perpetual succession. In that connection the attention of Congress was called to the fact that the laws of some 23 States provide for or permit perpetual succession of banks or other corporations authorized to exercise fiduciary powers.

The comptroller has issued certificates, under the law which was adopted, to such banks as were organized and in operation on the date of the passage of the act, certifying to that fact and that their corporate existence was extended for a period of 99 years, unless the bank should be sooner dissolved by the act of its shareholders owning two-thirds of its stock, or unless its franchise should become forfeited by reason of violation of law, or unless it should be terminated by act of Congress hereafter enacted.

By reason of the action of the House of Representatives in passing the bill providing for perpetual succession, and in view of the unani- mously favorable report of the Senate Committee on Banking and Currency, it would appear that a reconsideration of the measure at a future session of Congress may be reasonably anticipated and the banks accorded perpetual succession.

In the report of the Senate Committee on Banking and Currency upon the bill passed by the House of Representatives it was stated in part that:

The Committee on Banking and Currency, to whom was referred the bill (S. 3255) to amend section 5136, Revised Statutes of the United States, relating to corporate powers of associations, so as to provide succession thereof until dissolved, and to apply said section as so amended to all national banking associations, having considered the same, report favorably thereon with the recommendation that the bill do pass with amendments.

* * * * *

As the amendments proposed do not add or detract from the purposes of the bill, their adoption is recommended, particularly in view of the fact that the House Committee on Banking and Currency has reported favorably on the bill H. R. 9527 with these amendments, and if the changes suggested are made the two bills will be identical.

* * * * *

Within the next 18 months the charters of about 1,000 national banks will expire, and in the absence of some legislation authorizing the extension of these charters it will be necessary for these banks to close up their affairs and reorganize.

Under the act of 1863, national banks were to have succession for the period named in the articles of incorporation but not to exceed 20 years. In the revision and re-enactment of the banking law in 1864 the period of succession was fixed at 20 years from the date of organization. Under the act of July 12, 1882, provision was made for the extension of bank charters for an additional period of 20 years. Again this 20-year period was renewed April 12, 1902. There is now need for further legislation to continue the corporate life of national banks.

Both the Comptroller of the Currency and the Federal Reserve Board have expressed themselves as favoring perpetual or indeterminate charters for national banks. The Federal Reserve Board, in a letter written to the chairman of the committee on March 20, 1922, pointed out that most of the States grant charters to banking institutions for periods in excess of 20 years, many States, including New York, granting charters which automatically continue forever unless revoked or forfeited or unless the corporation is dissolved; and the fact that it is possible to obtain charters from the States which are more favorable in this respect than the charters granted to national banks not only is a deterrent to organization under the provisions of the national bank act, but operates also as an inducement to existing national banks to convert into State institutions.

An analysis of the State statutes relating to the duration of charters of State banking institutions shows that duration of charters is unlimited in 21 States of the Union as follows: Arkansas, Connecticut, Florida, Illinois, Kentucky, Maine, Massachusetts, Minnesota, Nebraska, New Hampshire, New Jersey, New York, North Carolina, Ohio, Oregon, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, and West Virginia. In Utah the duration of charters is limited to 100 years; Louisiana, 99 years; California, Idaho, Iowa (savings banks), Kansas, Mississippi, Missouri (savings banks), Montana, Nevada, New Mexico (trust companies), Oklahoma (trust companies), Texas, Washington, Wisconsin (banks and trust companies), and Wyoming, 50 years. The limitation in Maryland is 40 years; in Georgia and Michigan, 30 years; North Dakota (except trust companies) and Oklahoma, 25 years; Alabama, Colorado, Indiana, Iowa, Pennsylvania (commercial banks), and South Dakota, 20 years.

The Federal Reserve Board, in its letter to the committee, pointed out that the proposed legislation is particularly desirable from the standpoint of national banks exercising fiduciary powers granted to them under the provisions of section 11 (k) of the Federal reserve act. The fact that a national bank has to apply for periodical renewals of its charter seems to be a consideration which handicaps national banks in their competition with State institutions for fiduciary business. The Federal reserve act distinctly authorizes national banks, with the approval of the Federal Reserve Board, to exercise fiduciary powers, and the provision of the Federal reserve act has been upheld by a decision of the Supreme Court of the United States. There are numerous instances where national banks have surrendered their charters and have reorganized under State law. The committee is informed that many important national banks throughout the country are now considering the surrender of their charters, and as a concrete example mention may be made of the liquidation and

reorganization of a large national bank in Cleveland recently, which reorganized under State law because of its inability to take over the trust and fiduciary relations which are so important and which are continuing and subsisting and might last 100 years.

Section 18 of the Federal reserve act contemplates the ultimate retirement of all national bank notes in circulation, which at one time yielded a substantial profit to the national banks issuing them. There is a question whether the national banking system will be perpetuated unless national banks are able to compete on more equal terms with banks and trust companies doing business under State laws. The reasons which existed in 1863 and 1864 for the limitation on the life of a national bank charter do not appear to exist at the present time. The national banking system is no longer an experiment. It has stood the test of nearly 60 years and has fully justified its existence.

The acts of 1882 and 1902 require that circulating notes issued to and by a bank subsequent to extension shall be of a design making them readily distinguishable from notes issued prior thereto. The law also requires that within three years from the date of extension a national bank shall deposit lawful money for the redemption of old issues then outstanding.

There seems to be no good reason for this requirement at the present time. The records show that compliance with the requirement has entailed unnecessary expense both to the Government and to the banks—to the Government in that it has been necessary to destroy all incomplete national bank circulating notes of the old issues in the vaults of the Treasury upon extension of charter. By reason of extensions of charter, liquidations, etc., it has been necessary to destroy since January 1, 1913, incomplete national bank currency of the face value of over \$113,000,000, representing some 3,091,000 sheets of distinctive paper, costing for paper and printing alone \$139,125.

The Comptroller of the Currency has reported that during the existence of the national bank system destructions on these accounts have amounted to over \$371,000,000, representing over 9,000,000 sheets of distinctive paper, the cost of the paper and printing paid by the Government amounting to nearly \$413,000. The principal cost to the banks has been for the plates for the printing of currency on extension of charters, although there has been an incidental loss due to the necessary delay in engraving of plates and printing of currency and consequent deprivation of the use of the currency.

Other expenses incident to the handling, storing, and recording of bank currency to the amount hereinbefore indicated, it is estimated, have cost the Government about \$400,000, a large portion of which could have been saved but for the law requiring the issuance of distinctive currency on extension of charter.

The proposed bill will make this expense unnecessary in future.

Your committee desires to call particular attention to the fact that this bill as reported gives national banks succession until "it shall be dissolved by the act of its shareholders owning two-thirds of its stock, unless its franchise shall become forfeited by reason of violation of law, or unless it shall be terminated by the provision of act of Congress hereinafter enacted." In other words, the national banks will have succession (unless dissolved by voluntary action of their own shareholders) during good behavior. The charters can be forfeited for noncompliance with or violation of the Federal reserve act (sec. 2, Federal reserve act) in a suit brought by the Comptroller of the Currency under the direction of the Federal Reserve Board, while section 5239 of the Revised Statutes of the United States provides for such forfeiture for the violation of the provisions of the national bank act in a suit brought by the Comptroller of the Currency in his own name. In view of these statutory provisions, it appears to your committee that ample protection is afforded against possible abuses by national banks of their franchises.

In addition to this, provision is made that an act of Congress hereinafter enacted may terminate the charter of a national bank.

In view of the foregoing and other facts considered in connection with the subject, it is the unanimous opinion of the committee that the early adoption of the bill here reported is to the best interests of the public, the national banks, and the Government of the United States.

NATIONAL BANK EXAMINERS.

The following is a list of the examiners in the service on October 31, 1922:

CONDITION OF NATIONAL BANKS AT DATE OF EACH CALL DURING REPORT YEAR.

During the year ended October 31, 1922, national banks were called upon to submit as of various dates, in accordance with the provisions of section 5211, United States Revised Statutes, five reports of condition. These reports show in detail the resources and liabilities of reporting banks and such other information in the form of schedules as is necessary for the information of the comptroller and, with examiners' reports of semiannual examinations, prescribed by section 5240, United States Revised Statutes, are examined to determine the true condition of each association.

The consolidated returns of reporting national banks at dates of the several calls during the year are shown in the following table:

CONDITION OF NATIONAL BANKS SEPTEMBER 15, 1922.

Analyses in detail with respect to the combined resources and liabilities of reporting national banks in the United States and Territories as of September 15, 1922, follow:

RESOURCES.

LOANS AND DISCOUNTS.

The loans and discounts, including rediscounts, of national banks were reduced during the intervals between the dates of each call subsequent to September 6, 1921, and on September 15, 1922, amounted to \$11,236,025,000. The reduction since September 6, 1921, was \$446,667,000, and the reduction since date of preceding call, June 30, 1922, was \$12,189,000.

The percentage of loans and discounts to aggregate deposits, September 15, 1922, was 67.69, compared with 80.23 per cent September 6, 1921.

OVERDRAFTS.

The amount of overdrafts reported September 15, 1922, was \$12,141,000, or \$2,943,000 more than reported June 30, 1922, but a reduction since September 6, 1921, of \$214,000.

CUSTOMERS' LIABILITY ON ACCOUNT OF ACCEPTANCES.

The acceptance liability of customers of national banks on September 15, 1922, was \$171,190,000, showing a decrease since June 30, 1922, of \$5,048,000, and a reduction since September 6, 1921, of \$31,164,000.

UNITED STATES GOVERNMENT SECURITIES.

National-bank holdings of United States Government securities September 15, 1922, amounted to \$2,402,492,000, which was the greatest amount reported at date of any call during the year, the increase since June 30, 1922, was \$117,033,000 and the increase during the year amounted to \$540,515,000. Approximately \$736,000,000 of these securities were United States bonds deposited with Treasurer of the United States to secure national-bank circulation.

OTHER BONDS, STOCKS, SECURITIES, ETC.

The investments of national banks September 15, 1922, in miscellaneous bonds, stocks, securities, etc., amounting to \$2,289,782,000, likewise was the largest amount reported during the year, the increase since June 30, 1922, being \$11,916,000, while the increase for the year was \$316,033,000.

BANK PREMISES AND OTHER REAL ESTATE OWNED.

The book value of banking houses, furniture, and fixtures owned by national banks September 15, 1922, was \$459,020,000, an increase over June 30, 1922, of \$6,586,000 and an increase since September 6, 1921, of \$37,993,000.

The amount of other real estate owned by these banks September 15, 1922, was \$67,789,000, an increase since June 30, 1922, of \$3,406,000 and an increase during the year of \$14,850,000. The increase in the volume of other real estate owned is apparently due to the fact that during the process of liquidation of loans and discounts, it has been necessary for these banks to acquire title to real estate as additional protection to secure debts previously contracted, in accordance with the provision of section 5137, United States Revised Statutes, as under no other conditions is a national bank permitted to own real estate other than that necessary for occupation incident to the transaction of its business. The increase in the items, banking houses, furniture, and fixtures, is due principally to the increase in the number of reporting banks during the year.

LAWFUL RESERVE.

In accordance with the provision of section 19 of the Federal reserve act, national banks in central reserve cities, reserve cities, and country banks (banks situated elsewhere than in cities designated as central reserve or reserve cities) are required to maintain balances with Federal reserve banks in the several reserve districts equivalent to 13, 10, and 7 per cent, respectively, of demand deposits and 3 per cent, regardless of situation of the bank, of time deposits.

The lawful reserve of national banks with Federal reserve banks September 15, 1922, was \$1,232,104,000, some \$80,499,000 in excess of the amount reported June 30, 1922, and \$202,126,000 in excess of amount reported September 6, 1921. Reference to the returns at date of each call during the year with respect to the amount of reserve required and the amount held with Federal reserve banks, published in the appendix of this report, shows excess reserve held at date of

each report, the amount of excess September 15, 1922, being \$96,081,000. The increase in reserve is due to substantial increases in demand and time deposits during the past year.

CASH IN VAULT.

The tendency of national banks to carry less actual cash in vaults is noted by reference to the returns at date of each call subsequent to September 6, 1921, which show substantial reductions up to June 30, 1922, when the amount was reported at \$326,181,000, compared with \$331,951,000 September 15, 1922, the increase between the latter two dates being \$5,770,000. The decrease in cash on hand between September 6, 1921, and September 15, 1922, was \$25,847,000.

DUE FROM BANKS AND BANKERS.

Debit balances with correspondent banks reported by national banks, including balances due from Federal reserve banks incident to items sent for collection, to the amount of \$418,923,000, aggregated \$1,782,159,000, an increase over the amount reported June 30, 1922, of \$184,468,000 and an increase over the amount reported September 6, 1921, of \$437,027,000. Of these balances the greater portion, or \$1,063,695,000, was due from national banks.

EXCHANGES FOR CLEARING HOUSE.

The amount of exchanges for clearing house was \$614,771,000, a reduction since June 30, 1922, of \$152,325,000, but an increase since September 6, 1921, of \$146,926,000.

ALL OTHER ASSETS.

Other miscellaneous assets, consisting of checks and cash items and redemption fund, etc., amounted to \$326,675,000, a reduction of \$22,970,000 since June 30, 1922, and an increase over September 6, 1921, of \$15,341,000.

LIABILITIES.

CAPITAL STOCK, SURPLUS, AND UNDIVIDED PROFITS.

Incident to the issuance of new charters and increases in the capital of existing banks, the paid-in capital stock of national banks was increased between September 6, 1921, and September 15, 1922, from \$1,276,177,000 to \$1,307,122,000.

The surplus of these banks was likewise increased in the period indicated from \$1,027,373,000 to \$1,042,197,000, while undivided profits (less deductions incident to expenses and taxes paid), were increased from \$538,784,000 to \$539,047,000.

NATIONAL BANK NOTES OUTSTANDING.

The volume of national bank notes in circulation was far in excess of any amount previously reported, with exception of the period during the latter part of 1914 and the early part of 1915, when emergency currency was issued in accordance with the provisions of the act of May 30, 1908, and amounted to \$726,789,000, which was

\$1,041,000 greater than the amount outstanding June 30, 1922, and \$22,121,000 in excess of the amount reported September 6, 1921.

ALL DEPOSITS.

The deposit liability of national banks September 15, 1922, was \$16,598,762,000, and was greater than at the date of any previous call during the year, the increase over June 30, 1922, being \$278,198,000, while the increase over September 6, 1921, was \$2,037,910,000. Of the total deposits September 15, 1922, \$3,013,982,000 was due to other banks and bankers and Federal reserve banks, while demand deposits, including United States deposits of \$145,182,000, amounted to \$9,415,560,000, and time deposits, including postal savings deposits, were \$4,169,220,000. Noticeable increases are reflected in the returns during the year with respect to demand and time deposits, the latter item showing an increase at the date of each call subsequent to September 6, 1921, while demand deposits, with exception of the period between December 31, 1921, and March 10, 1922, when a reduction of \$133,155,000 was registered, were substantially increased.

BONDS AND BORROWED MONEY.

The liability of national banks for Government securities borrowed was \$38,104,000, a reduction of \$4,371,000 since June 30, 1922, and a reduction since September 6, 1921, of \$46,743,000. Other bonds and securities were borrowed to the extent of \$2,990,000, an increase over June 30, 1922, of \$93,000, but a reduction since September 6, 1921, of \$240,000.

Decided reductions on account of bills payable and notes and bills rediscounted are shown by the returns at date of each call subsequent to September 6, 1921. The reduction on account of bills payable during the year was \$369,930,000, the amount reported September 15, 1922, being \$181,765,000, or \$46,716,000 less than on June 30, 1922, while notes and bills rediscounted were reduced during the year to the extent of \$457,519,000, or to \$247,559,000. The reduction in notes and bills rediscounted between June 30 and September 15, 1922, was \$32,712,000. Of the total bills payable September 15, 1922, \$103,747,000, represented liabilities to Federal reserve banks, and on the same date \$182,061,000 of the total notes and bills rediscounted were with these banks.

BANK ACCEPTANCES AND OTHER LIABILITIES.

The aggregate of acceptances executed for customers and by other banks for account of reporting banks was \$183,369,000, a reduction during the year of \$34,811,000, while all other liabilities, amounting to \$58,395,000, show an increase over September 6, 1921, of \$10,099,000.

AGGREGATE RESOURCES AND LIABILITIES.

An analysis of the returns from the 8,240 reporting national banks, with aggregate resources and liabilities September 15, 1922, of \$20,926,099,000, an increase of \$1,206,919,000 during the past year, and an increase of \$220,089,000 since the midsummer call of June

30 of the present year, warrants the conclusion that our national banks with resources representative of 41.50 per cent of the aggregate resources of all banks in the United States as late as June 30, 1922, constitute the keystone of American banking institutions.

The principal items of resources and liabilities of these banks September 15, 1922, the date of the last call during this report year, are shown in the following statement by States and geographical divisions:

Principal items of resources and liabilities of national banks September 15, 1922.

NONBORROWING NATIONAL BANKS, SEPTEMBER 15, 1922.

In connection with the preceding statement, showing principal items of resources and liabilities of national banks in each State and geographical division, September 15, 1922, the following statement with respect to the principal items of resources and liabilities of non-borrowing national banks on the same date, shows that of the 8,240 banks reporting, 56.72 per cent had no outstanding obligations for borrowed money. The loans and discounts of these banks, amounting to \$5,379,886,000, equaled 47.83 per cent of the total loans and discounts of all national banks. Investments in United States Government and other bonds and securities were 56.79 per cent of the total investments of national banks and amounted to \$2,664,609,000. Cash in vaults of nonborrowing banks was 59.63 per cent of total cash in vault. Balances due reporting banks from other banks and bankers, including miscellaneous cash items amounting to \$1,907,669,000 represented 50.92 per cent of the total of all reporting banks, and their aggregate resources were 50.13 per cent of total resources of all reporting banks, and amounted to \$10,489,400,000.

The capital, surplus, and profits of nonborrowing national banks were 50.14 per cent of the aggregate for all reporting banks, and amounted to \$1,448,163,000, while the liability for \$420,079,000 circulating notes outstanding was 57.80 per cent of the total amount outstanding and the total deposits of nonborrowing banks amounted to \$8,569,884,000, or 51.63 per cent of total deposits of all national banks.

The fact that more than one-half of the national banks reporting were not borrowing from any source, is additional evidence of the stability of the national banking system.

On April 28, 1921, the latest prior date for which similar information with reference to borrowing and nonborrowing national banks is available for comparative purposes, the percentage of nonborrowing banks to the number of all reporting banks was 39.78. The percentage of loans and discounts of nonborrowing banks to the loans and discounts of all national banks was 26.48. The percentage of cash in vault of nonborrowing banks to the total cash in vault of all national banks was 37 and the percentage of total deposits of non-borrowing banks to total deposits of all national banks was 30.50.

BORROWINGS OF NATIONAL BANKS ON ACCOUNT OF BILLS PAYABLE AND REDISCOUNTS.

On September 15, 1922, the total borrowings of national banks on account of bills payable and incident to the rediscount of notes and bills, amounted to \$429,324,000 compared with \$1,019,929,000, December 31, 1921, the date of the first call during the year covered by this report.

The liquidation of liabilities on account of bills payable and rediscounts of national banks, indicated by the returns at date of each call during the report year, shows that our national banks are rapidly getting back to normal condition, and are very largely able to meet the demands from their customers without the necessity of resorting to borrowing.

The following statement shows the amount of bills payable and rediscounts of national banks in each of the 12 Federal reserve districts at date of each call since September 6, 1921:

Total borrowings of national banks on account of bills payable and rediscounts in each Federal reserve district at date of each call during year ended September 15, 1922.

SAVINGS DEPOSITORS AND DEPOSITS IN NATIONAL BANKS.

On June 30, 1922, the returns from 5,785 national banks operating savings departments or carrying savings accounts showed savings depositors to the number of 8,875,088, with credit balances of \$3,046,647,000.

By reference to the following statement showing information with respect to savings depositors, and deposits, by central reserve cities, reserve cities, and States, it is noted that banks in the Eastern States report the greatest number of depositors and largest volume of deposits. The Middle Western States are credited with the next largest number of depositors and amount of deposits, while the Southern States come next in order and the New England States, the Pacific States, and the Western States rank in the order indicated with respect to the number of depositors, but the banks in the New England States are credited with the next largest volume of deposits, the Pacific States banks coming next, the banks in the Western States reporting the smallest amount of savings deposits in any geographical section. The average rate of interest credited to savings deposits by national banks according to the tabulation is 3.71 per cent.

Although national banks were requested to include in the classification of savings deposits only those deposits subject to 30 days or more notice before withdrawal, it will be noted from the following statements that the aggregate of deposits includes approximately \$85,353,000 certificates of deposit.

EARNINGS, EXPENSES, AND DIVIDENDS OF NATIONAL BANKS.

In the fiscal year ended June 30, 1922, the gross earnings of national banks amounted to \$1,067,268,000, or a reduction compared with the gross earnings for the fiscal year ended June 30, 1921, of \$134,651,000. This reduction is accounted for principally by reason of the curtailment of the loans and discounts of these banks, the amount of interest and discount collected being reduced between these dates from \$1,105,832,000 to \$955,451,000. Exchange and collection charges amounted to \$15,546,000, compared with \$20,439,000 June 30, 1921, and foreign exchange profits dropped from \$21,472,000 June 30, 1921, to \$15,868,000. Very little change is noted in the amount of collections incident to commissions and earnings from insurance premiums and the negotiation of real estate loans authorized by section 13 of the Federal reserve act, the respective amounts for the two periods indicated being \$1,191,000 and \$1,169,000. Other miscellaneous earnings during the year aggregated \$79,234,000, compared with \$52,985,000 during the prior year.

The expenses paid by national banks in the last fiscal year amounted to \$732,990,000, of which amount the principal item was on account of interest paid on deposits, which totaled \$294,076,000. The next largest item of expense was on account of salaries and wages, aggregating \$198,404,000, while interest and discount on borrowed money amounted to \$47,685,000, and the amount paid on account of taxes was \$79,376,000. The total of other miscellaneous expenses was \$113,449,000, leaving the net earnings of these banks, with the addition of \$41,782,000, which was recovered on account of charged-off assets, at \$376,060,000, compared with \$395,991,000 during the previous year.

During the current year it was necessary for national banks to charge off \$135,208,000, losses on account of loans and discounts, compared with \$76,210,000 charged off during 1921. It was also necessary to charge off on account of bonds, securities, etc., \$33,444,000, compared with \$76,179,000 during the prior year, and other losses charged off, including \$2,073,000 on foreign exchange, amounted to \$23,738,000, compared with \$27,496,000 during 1921.

The net addition to profits, after deducting the losses referred to in the preceding paragraph, amounted to \$183,670,000, which was \$32,436,000 less than the amount added to profits during the preceding year. Dividends were declared to the amount of \$165,884,000, compared with \$158,158,000 in 1921. The per cent rate of dividends to paid-in capital stock was 12.69, compared with 12.42 for 1921, and the amount of net addition to profits during the current year was equal to 14.05 per cent of capital, compared with 16.97 per cent during the previous fiscal year. Including surplus and undivided profits with capital, the per cent rate of dividends paid during the fiscal year ended June 30, 1922, was 5.82, compared with 5.66 for 1921, and on this basis the net addition to profits was equal to 6.45 per cent, compared with 7.73 during the preceding fiscal year.

The comparison of earnings, expenses, and dividends of national banks for the fiscal years ended June 30, 1921 and 1922, is shown in the statement following.

Earnings, expenses, and dividends of national banks for the fiscal years ended June 30, 1921 and 1922.

NATIONAL BANKS CLASSIFIED ACCORDING TO CAPITAL STOCK.

On September 15, 1922, there were 2,142 national banks operating in accordance with the provision of section 5138, United States Revised Statutes, with minimum capital of \$25,000. The loans and discounts of these banks amounted to \$418,754,000, their total resources were \$734,522,000, and aggregate capital and deposits were \$53,529,000 and \$565,796,000, respectively.

There were 2,459 banks with individual capital stock of over \$25,000 but not over \$50,000 with combined capital of \$116,007,000, aggregate resources of \$1,630,333,000, loans and discounts of \$893,227,000, and total deposits of \$1,250,095,000.

The largest number of banks in any class were those having capital in excess of \$50,000 but not over \$200,000. In this class there were 2,801 banks with loans and discounts of \$2,417,571,000, total resources of \$4,523,833,000, capital stock of \$323,812,000, and total deposits of \$3,483,594,000.

There were 534 banks with loans and discounts of \$1,562,985,000, total resources of \$2,858,511,000, capital stock of \$189,819,000, and total deposits of \$2,232,850,000, in the class of banks with capital in excess of \$200,000 but not over \$500,000.

The number of banks with capital in excess of \$500,000 but not over \$1,000,000 was 171; their loans and discounts were \$1,228,778,000, total resources \$2,196,900,000, capital stock \$147,425,000, and total deposits \$1,743,491,000; while in the class with capital in excess of \$1,000,000 but not over \$5,000,000 there were 113 banks with loans and discounts of \$2,251,797,000, total resources of \$4,162,345,000, capital stock of \$216,030,000, and aggregate deposits of \$3,389,441,000.

There were 20 banks with capital stock in excess of \$5,000,000. Eight of these banks are in New York, 2 in Chicago, 2 in Boston, 2 in Pittsburgh, 1 in Cincinnati, 1 in Milwaukee, 2 in St. Louis, and 2 in San Francisco. The combined loans and discounts of these 20 banks were \$2,462,913,000, their total resources \$4,819,655,000, or 23.03 per cent of the total resources of all reporting banks, capital \$260,500,000, and total deposits \$3,933,495,000.

A classification of national banks by cities and States according to capital stock is published in the appendix of this report, of which the following is a summary:

NATIONAL BANK FAILURES.

Thirty-one national banks, with aggregate capital of \$2,015,000, were placed in charge of receivers during the year ended October 31, 1922. The date that each bank was authorized to commence business, date of appointment of the receiver, the capital stock, and the circulation outstanding at date of failure are shown in the appendix of this report.

The first failure of a national bank took place in 1865; from that date until the close of business on October 31, 1922, the number of banks placed in charge of receivers was 659. Of this number, however, 47 were subsequently restored to solvency and permitted to resume business. The total capital of these failed banks at date of failure was \$99,560,920, while the book or nominal value of the assets administered by receivers under the supervision of the comptroller aggregated \$443,197,772, and the total cash thus far realized from the liquidation of these assets amounted to \$221,170,213. In addition to this amount, however, there has been realized from

assessments levied against shareholders the sum of \$25,688,666, making the total cash collections from all sources \$246,858,879, which have been disbursed as follows:

| | |
|--|--------------------|
| In dividends to creditors on claims proved, amounting to \$228,869,734, the sum of..... | \$167,291,006 |
| In payment of loans and other disbursements discharging liabilities of the bank other than those of the general creditors..... | 55,309,379 |
| In payment of legal expenses incurred in the administration of such receiverships..... | 6,265,539 |
| In payment of receivers' salaries and other expenses of receiverships... | 11,414,302 |
| There has been returned to shareholders in cash..... | 4,139,078 |
| Leaving a balance with the comptroller and the receivers of..... | 2,439,575 |
| Total..... | 246,858,879 |

In addition to the funds thus distributed there has been returned to agents for shareholders, to be liquidated for their benefit, assets having a nominal value of \$15,818,008.

The book or nominal value of the assets of the 83 national banks that are still in charge of receivers amount to \$77,334,921. The receivers had realized from these assets at the close of business on October 31, 1922, the sum of \$35,031,386 and had collected from the shareholders on account of assessments levied against them to cover deficiencies in assets the further sum of \$2,596,307, making the total collections from all sources in the liquidation of active receiverships the sum of \$37,627,693, which amount has been distributed as follows:

| | |
|---|-------------------|
| Dividends to creditors (to Sept. 30, 1922)..... | \$20,511,703 |
| Loans paid and other disbursements discharging liabilities of the bank other than those to the general creditors..... | 12,278,312 |
| Legal expenses..... | 586,253 |
| Receivers' salaries and all other expenses of administration..... | 1,482,095 |
| Amount returned to shareholders in cash..... | 354,245 |
| Leaving a balance with the comptroller and the receivers of..... | 2,415,085 |
| Total..... | 37,627,693 |

The receiverships of five national banks which had failed in previous years were finally closed during the year ended October 31, 1922, making a total of 576 closed receiverships.

The collections from the assets of the 576 national banks, the affairs of which have been finally closed, amounted to \$186,138,827, and, together with the collections of \$23,092,359 from assessments levied against the shareholders, make a total of \$209,231,186, from which on claims aggregating \$190,080,923 dividends were paid amounting to \$146,779,303.

The average rate of dividends paid on claims proved was 77.21 per cent, but including offsets allowed, loans paid, and other disbursements with dividends, creditors received on an average 83.72 per cent.

The expenses incident to the administration of these 576 trusts—that is, receivers' salaries and legal and other expenses—amounted to \$15,611,493, or 4.26 per cent of the nominal value of the assets and 7.46 per cent of the collections from assets and from shareholders. The outstanding circulation of these banks at the date of failure was \$28,966,801, which was secured by United States bonds on deposit in the Treasury of the face value of \$31,223,550. The

assessments against shareholders averaged 51.43 per cent of their holdings, while the collections from the assessments levied were 48.55 per cent of the amount assessed. The total amount disbursed in dividends during the current year to the creditors of insolvent banks was \$2,439,692.

In the table following is summarized the condition of all insolvent national banks, the closed and active receiverships being shown separately:

Of the 31 banks placed in charge of receivers since October 31, 1921, 8 were closed on account of the inability to realize on loans; 2, default of officers; 1, fraudulent management and injudicious banking; 7, deficient reserve and inability to realize on loans; 7, injudicious banking; 2, inability to meet demands; 3 by reason of "runs"; and 1 on account of injudicious banking and depreciation of securities.

NATIONAL BANK CHARTERS APPLIED FOR, GRANTED, AND REFUSED.

Applications for charters for 272 national banking associations, with capital of \$25,490,800, were made during the 12 months ended October 31, 1922, as compared with 206 applications and capital of \$25,370,000 during the previous year. Of the applications received, 210, with capital of \$23,700,800, were approved, as against 153 and capital of \$17,595,000 in 1921.

In the last year 25 applications, with capital of \$1,205,000, were rejected, and 22, with capital of \$1,610,000, were abandoned or action thereon indefinitely deferred. The principal causes of rejection were lack of demand for additional banking facilities in the various communities or the reported unsatisfactory financial standing or character of the applicants.

National banking associations to the number of 232, with capital of \$24,890,800, were chartered in the year ended October 31, 1922, as compared with 169 associations, with capital of \$20,005,000, chartered in 1921. Of the national banks chartered during the year just closed, only 53 became banks of issue, and of this latter number 27 were converted from or succeeded State banks, 3 were reorganized national banks, and 23 were banks of primary organization.

INCREASES AND REDUCTIONS OF CAPITAL STOCK OF NATIONAL BANKS.

In order to meet the constantly increasing demands for additional capital, there was an increase in the capital stock of national banks of \$35,027,350 on the part of 229 national banks during the year. The increases of 73 of these banks were effected partially or entirely by the declaration of stock dividends from the undivided profits of the banks. The aggregate amount of stock dividends was \$10,790,800. In the previous year the increase in capital of existing banks was \$27,835,800, the number of banks concerned in this increase being 259.

In 1922 there were but 15 banks which effected a reduction in their capital stock, the aggregate being \$1,145,000; there were also 9 reductions in capital, aggregating \$3,275,000, incident to consolidations of national banks under the act of November 7, 1918. In 1921 the number of reductions of capital was 3 and the aggregate amount of the reductions was \$200,000; there were also 3 reductions, aggregating \$850,000, under the consolidation act of November 7, 1918.

LIQUIDATION OF NATIONAL BANKS.

Exclusive of 25 banks, with capital of \$6,295,000, liquidated and absorbed by other national banks, 78 national banking associations, with capital of \$12,615,000, were placed in voluntary liquidation, or the corporate existence expired during the past year, of which 61 were absorbed by State banks, 16 reorganized as State banks, and 1 quit business. Of the 103 liquidations for the past year, advice has been received from 25 that their affairs have been entirely closed. The year before there were 93 liquidations, with \$37,075,000 capital. The number of receiverships was 31, and the capital involved was only \$2,015,000.

CONSOLIDATION OF NATIONAL BANKS.

Under the provisions of the act of Congress approved November 7, 1918, providing for the consolidation of national banking associations, 170 national banks have consolidated into 84 associations. During the last year 21 consolidations were effected, with capital of \$46,425,000, surplus \$42,833,404, and other undivided profits of \$21,494,383, the number of banks concerned being 42 and their capital \$46,750,000. There was therefore a reduction as a result of these consolidations of \$325,000 in aggregate capital stock. The total assets of the 21 consolidated banks amounted at the date of consolidation to \$997,328,244.

In the following table the capital, surplus, undivided profits, and aggregate assets and date of consolidation of each of the 21 consolidated banks are shown.

GROWTH IN NUMBER AND CAPITAL OF NATIONAL BANKS.

Notwithstanding the liquidations and the consolidations which took place there was a net increase in the year ended October 31, 1922, of 83 in the number of national banking associations and of \$34,973,150 in capital. The authorized capital stock of the 8,262 national banks in existence at the close of the year was \$1,316,968,715.

NATIONAL BANKS' CAPITAL STOCK CHANGES, 1914-1922.

During the period covered by the existence of the Federal reserve system, years ended October 31, 1914, to October 31, 1922, applications to the number of 2,710 were received for the organization of national banking associations, with aggregate capital of \$169,500,000; of this number, 1,972 were approved. The number of banks chartered was 1,808, with combined capital of \$157,700,000. In this period 2,063 banks effected increases in their capital stock to the amount of \$298,700,000. As a result of voluntary liquidations to the number of 870 and 119 failures, there was a loss of capital aggregating \$182,900,000. Banks to the number of 95 reduced their capital to the extent of \$11,890,000. There was no material increase in capital resulting from the consolidation of banks under act November 7, 1918; but the various changes referred to occasioned a net increase of national bank capital of approximately \$250,000,000 during the period covered by this survey.

From the inauguration of the national banking system in 1863 to October 31, 1922, national banking associations to the number of 12,265 were chartered, the capital stock at organization being \$1,245,109,282. The total loss to the system in the number of banks during this period was 4,003, of which 3,391 were closed by voluntary liquidation or by consolidation with other national banks and 612 were liquidated through receivers.

ORGANIZATION AND LIQUIDATION OF NATIONAL BANKS.

The statistical or report year of the Comptroller of the Currency terminates on October 31, and the following table contains a statistical annual history from 1914 to 1922, inclusive, of the number of banks organized each year, and their capital at date of organization, together with the number and capital of banks closed voluntarily or by reason of failure, together with the yearly net increase or decrease in the number of banks and original capital. In the table the increases and reductions of capital of existing banks are not taken into account.

FOREIGN BRANCHES OF NATIONAL BANKS.

In accordance with the provision of section 25 of the Federal reserve act, "any national banking association possessing a capital and surplus of \$1,000,000 or more may, with the approval of the Federal Reserve Board, establish branches in foreign countries or dependencies or insular possessions of the United States for the furtherance of the foreign commerce of the United States, and to act, if required to do so, as fiscal agents of the United States."

Only two national banks, however, have taken advantage of this provision of the law, namely, the First National Bank of Boston and the National City Bank of New York.

The location and the condition of each foreign branch of the banks referred to is shown in the following statement as of June 30, 1922:

UNITED STATES BONDS AND OTHER INTEREST-BEARING OBLIGATIONS.

The public debt of the United States at close of the current fiscal year was \$22,963,381,708, of which \$22,710,338,105 is interest bearing. In the obligations classed as bonds, aggregating \$15,965,451,970, are the following:

| | |
|--|---------------|
| Available as security for national-bank circulation..... | \$793,115,530 |
| Panama Canal 3 per cent bonds..... | 50,000,000 |
| Conversion bonds..... | 28,894,500 |
| Postal Savings bonds..... | 11,830,440 |

Other interest-bearing obligations—notes, certificates and war savings securities—are as follows:

| | |
|----------------------------------|------------------|
| Liberty loan bonds..... | \$15,081,611,500 |
| Victory Liberty loan notes..... | 1,991,183,400 |
| Treasury notes..... | 2,246,596,350 |
| Treasury certificates..... | 1,828,787,500 |
| War Savings Securities..... | 619,371,842 |
| Treasury savings securities..... | 58,947,043 |

Of the bonds available as security for national bank circulation, aggregating \$793,115,530, the Treasurer of the United States holds in trust for national and Federal reserve banks, and to secure public deposits, \$746,651,500. As will be noted by reference to the table following, over 98 per cent of the Treasurer's holdings of these securities is held as security for national bank circulation. It further appears that of the total of these securities, the national banks have on deposit an amount representing over 92 per cent.

As the paid-in capital of the national banks on June 30, 1922, was roundly \$1,307,000,000 (the measure of the amount of national bank currency issuable), it is evident that the volume of eligible bonds is only 60 per cent of the amount necessary to permit the maximum issue of national bank circulation.

In the following statement is shown the amount of United States bonds outstanding, eligible as security for national bank circulation, together with the amount of each class held by the Treasurer of the United States as security for national bank circulation, Federal reserve bank notes, and United States deposits.

| Class. | In- terest rate. | Outstand- ing. | To secure national- bank circulation. | To secure Federal reserve bank notes. | To secure deposits. of public moneys. | Total. |

PROFIT ON NATIONAL BANK CIRCULATION.

In computations made by the Actuary of the Treasury Department, the profit on the issuance of national-bank circulation is stated to be measured by the difference between interest at the rate of 6 per cent on the amount invested in the bonds and the net receipt from interest on the bonds and interest on 95 per cent of the circulation loaned at the rate of 6 per cent. The maintenance of the 5 per cent redemption fund depletes to that extent the volume of loanable funds.

Investment of \$100,000 in 4 per cent bonds of 1925 at the market price in October last would amount to \$104,068. The interest on bonds deposited would be \$4,000; interest on circulation, less 5 per cent redemption fund, at 6 per cent, \$5,700; total receipts, \$9,700. Deducting from this amount the circulation tax, expenses for redemption and sinking fund, aggregating \$2,731.65, would leave net receipts of \$6,968.35. The difference between the latter amount and interest at 6 per cent on the cost of the bonds, \$6,244.08, represents the measure of profit on the circulation; that is, \$724.27, or 0.696 of 1 per cent.

With the deposit of \$100,000 2 per cent consols at cost in October last of \$102,858, the profit on circulation would be \$761.59, or 0.74 of 1 per cent.

Upon deposit of \$100,000 2 per cent Panama Canal bonds of 1916-1936 at a cost in October last of \$102,918 the profit on circulation would be \$824.95, or 0.802 of 1 per cent.

In the appendix of this report will be found tables compiled by the actuary, showing the profit on circulation secured by the classes of bonds mentioned, based upon the average net price monthly from November, 1921, to October, 1922; the investment value of United States bonds, eligible as security for national-bank circulation, quarterly to October, 1922, and also the monthly range of prices in New York for these bonds, both coupon and registered, from November, 1921 to October, 1922.

REDEMPTION OF NATIONAL BANK AND FEDERAL RESERVE CURRENCY.

The amount of currency received for redemption, by months, from November 1, 1921, to October 31, 1922, and counted into the cash of the National Bank Redemption Agency, was as follows:

| Date. | National bank notes. | Federal reserve bank notes. | Federal reserve notes. | Total. |

The amount of currency received for redemption from the following cities was:

| | | | |
|-------------------|--------------|--------------------|--------------|
| Boston..... | \$49,760,950 | Kansas City..... | \$19,851,000 |
| New York..... | 140,596,525 | Dallas..... | 21,882,700 |

| St. Louis..... | 25,627,900 | | |
| Minneapolis..... | 16,349,500 | Total..... | 748,573,504 |

The difference between the totals in the foregoing tables is accounted for by the inclusion of a relatively small amount of United States currency in remittances.

The average cost per \$1,000 for all notes redeemed through cash was \$0.91. The average rates by classes were as follows:

| | |
|---------------------------------|--------|
| National-bank notes..... | \$0.95 |
| Federal reserve bank notes..... | .92 |
| Federal reserve notes..... | .45 |

There were also received direct from Federal reserve banks and their branches canceled Federal reserve notes amounting to \$2,127,406,150, which were not counted into cash and therefore are not included in the foregoing figures. The average rate per \$1,000 for expenses of redemption of this class was \$0.10.

The amount of national-bank notes fit for circulation received and returned to banks during the year ended October 31, 1922, was \$9,554,320.

The total cost of redemption of Federal reserve and national currency for the fiscal year 1922 was \$985,255.83, in accordance with the following statement:

| | |
|--|---------------------|
| Charges for transportation, including postage, insurance, and express charges..... | \$265,809.00 |
| Cost for assorting: | |

| Total..... | 2,977,338,282.50 | .33091833 | 985,255.83 |

Based upon the records of the office of the Comptroller of the Currency and of the Federal reserve banks, it appears that the average amount of bank circulation outstanding during the year was some \$3,052,600,000, and that from the foregoing figures it would appear that an amount exceeding 94 per cent of the average issues was redeemed. The average amount of national-bank circulation outstanding was \$754,700,000 and the amount received for redemption was over 75 per cent. During the last year over \$50,000,000 of Federal reserve bank notes have been retired, leaving the amount outstanding on November 1, 1922, \$35,500,000. As a result of the retirements the average amount of these notes outstanding during the year appears to have been approximately \$70,000,000. The amount of this class of notes received for redemption from the National Bank Redemption Agency during the last year reached \$118,254,000. The redemptions of all Federal reserve issues through Federal reserve banks and the National Bank Redemption Agency during the last year aggregated \$2,305,000,000, a fraction over 100 per cent of the average amount in circulation.

NATIONAL-BANK CIRCULATION.

At the close of business October 31, 1922, the aggregate amount of national-bank circulation outstanding was \$760,679,187. With the exception of a small amount of \$1 and \$2 notes issued under the act of 1864 and prior to 1879 the principal denominations of these notes were \$5, \$10, \$20, \$50, and \$100, as shown by the following statement:

NATIONAL BANK CIRCULATION IN VAULTS OF CURRENCY BUREAU.

During the year ended October 31, 1922, national bank notes were received from the Bureau of Engraving and Printing to the amount of \$527,981,000, which amount, with the balance of \$351-, 412,930 in the vaults of this bureau at close of business October 31, 1921, makes a total to be accounted for at close of business October 31, 1922, of \$879,393,930. During the year ended October 31, 1922, notes were issued to replace notes of existing banks re-deemed and destroyed, to new banks chartered, and on account of banks increasing their circulation to the amount of \$569,444,140, while the amount of notes withdrawn and destroyed on account of liquidations and expirations of charter amounted to \$6,720,160, making aggregate withdrawals during this period of \$576,164,300, leaving a balance of currency in the vaults at close of business October 31, 1922, of \$303,229,630, or \$48,183,300 less than the balance at close of business October 31, 1921.

The amount of national bank circulation issued and the total amount outstanding each month during the year ended October 31, 1922, together with the amount received from the Bureau of Engraving and Printing, the cost of paper, the cost of printing, etc., and the total cost, is shown in the following statements:

NOTE.—During the year, burned, badly mutilated, and fractional parts of Federal reserve notes, amounting to \$67,175, have been identified, valued, and the bank of issue determined.

FEDERAL RESERVE BANK NOTES.

Federal reserve bank notes are secured by the deposit of United States bonds with the Treasurer of the United States, or in accordance with the provisions of the act of April 23, 1918, known as the Pittman Act, by United States certificates of indebtedness.

The following statements show the denominations and the aggregate amount of Federal reserve bank notes printed, issued, and redeemed during the year ended October 31, 1922, and the balance on hand on that date:

BANKING POWER OR THE UNITED STATES.

The banking power of the United States, June 30, 1922, measured by the capital, surplus and profits, deposits and circulation of all reporting banks, including national banks and Federal reserve banks, and estimated figures for nonreporting private banks, aggregated \$50,175,300,000, which was \$1,955,400,000 greater than the total banking power June 30, 1921.

The number of banks and the proportion of the aggregate banking power contributed by each class of institutions is shown in the following statement as of June 30, 1922, with the amount of increase since June 30, 1921:

³ Decrease.

NOTE.—Information for nonreporting private banks has been estimated by using as a basis for the calculation statements of reporting private banks. Only such institutions as are performing the functions of a bank are included in the total number of private banks. Concerns whose business is confined to the selling of investments are not included in the list of private bankers.

MONEY IN THE UNITED STATES.

From July 1, 1914, to July 1, 1922, the stock of money increased from \$3,738,000,000 to \$8,177,000,000; the amount in circulation per capita, from \$34.35 to \$39.86, and the population from 99,000,000 to 109,700,000.

Incidentally it is interesting to note that between January 1, 1914, and August 31, 1922, the importations of gold and silver amounted to \$3,684,700,000, the exports to \$2,507,979,000, resulting in an excess of imports of these metals of \$1,176,721,000.

The statements following prepared by the Division of Loans and Currency, Treasury Department, and compiled from information furnished by the Department of Commerce, Bureau of Foreign and Domestic Commerce, respectively, show the general stock of money in the United States July 1, 1922, and the amount of imports and exports of merchandise, gold and silver, for calendar years 1914 to 1921, and the eight months ended August 31, 1922, respectively.

¹ The form of circulation statement has been revised as of July 1, 1922, so as to exclude from money in circulation all forms of money held by the Federal reserve banks and Federal reserve agents, whether as reserve against Federal reserve notes or otherwise. This change results in showing a per capita circulation on July 1, 1922, of \$39.86, whereas under the form of statement heretofore used it would have been \$49.16. For the sake of comparability the figures for June 1, 1922, July 1, 1921, and Apr. 1, 1917, have been computed on this statement in the same manner as those for July 1, 1922.

² Does not include gold bullion or foreign coin outside of vaults of the Treasury, Federal reserve banks, and Federal reserve agents.

³ These amounts are not included in the total, since the money held in trust against gold and silver certificates and Treasury notes of 1890 is included under gold coin and bullion and standard silver dollars, respectively.

⁴ The amount of money held in trust against gold and silver certificates and Treasury notes of 1890 should be deducted from this total before combining it with total money outside of the Treasury to arrive at the stock of money in the United States.

⁵ This total includes \$17,249,719 of notes in process of redemption, \$178,459,108 of gold deposited for redemption of Federal reserve notes, \$6,415,374 of lawful money deposited for redemption of Federal reserve bank notes, \$14,251,012 deposited for redemption of National bank notes, \$31,080 deposited for retirement of additional circulation (act of May 30, 1908), and \$7,047,173 deposited as a reserve against postal saving deposits.

NOTE.—Gold certificates are secured dollar for dollar by gold held in the Treasury for their redemption; silver certificates are secured dollar for dollar by standard silver dollars held in the Treasury for their redemption; United States notes are secured by a gold reserve of \$152,979,025.63 held in the Treasury. This reserve fund may also be used for the redemption of Treasury notes of 1890, which are also secured dollar for dollar by standard silver dollars, held in the Treasury. Federal reserve notes are obligations of the United States and a first lien on all the assets of the issuing Federal reserve bank. Federal reserve notes are secured by the deposit with Federal reserve agents of a like amount of gold or of gold and such discounted or purchased paper as is eligible under the terms of the Federal reserve act. Federal reserve banks must maintain a gold reserve of at least 40 per cent, including the gold redemption fund which must be deposited with the United States Treasurer, against Federal reserve notes in actual circulation. Federal reserve bank notes and National bank notes are secured by United States Government obligations, and a 5 per cent fund for their redemption is required to be maintained with the Treasurer of the United States in gold or lawful money.

¹ A comparison of discount and interest rates prevailing during the 30-day period ended September 15 and the 30-day period ended August 15, shows very little change. The only declines of any importance are in prime commercial paper to customers, interbank loans, and indorsed bankers' acceptances. Compared with the corresponding period last year, all rates continue to be lower.

² Rates for demand paper secured by prime bankers' acceptances, high 4 1/2, low 3, customary 3 1/2-4.

Gold held abroad as follows, not included in the above figures (presumably reported by the country having actual possession): Egypt, \$15,331,811; Italy, \$3,155,980; Japan, \$428,217,500; Straits Settlements, \$3,763,686; British Honduras, \$89,000; Yugoslavia, \$59,913,254 (gold and silver) Bank of France, \$376,034,331; Chile, \$12,511,178; Peru, \$14,142,010; Honduras, \$300,000; Argentina, \$3,977,870; Union of South Africa, \$3,500,000 (gold and silver).

NEW YORK CLEARING HOUSE.

The transactions of the New York Clearing House for the year ended September 30, 1922, which comprises a membership of 43 banks with capital of \$288,100,000, show an increase in the amount of clearings, although nine banks withdrew from membership during the year. The total clearings for the year ended September 30, 1922, were \$213,326,385,752, compared with \$204,082,339,000 for the year ended September 30, 1921. The average daily clearings during the year ended September 30, 1922, were \$706,378,761, compared with \$673,539,074 during the year ended September 30, 1921, while the average daily balances for the years 1922 and 1921 were \$69,644,619 and \$68,845,693, respectively. The percentage of balances to clearings for the year 1922 was 9.86 compared with 10.22 for 1921.

The clearing-house transactions of the Federal Reserve Bank of New York for the year ended September 30, 1922, are shown in the following statement, and in the appendix of this volume, statements showing the exchanges of the clearing houses of the United States for years ended September 30, 1921 and 1922, and the transactions of the New York Clearing House Association for a period of 69 years, or since 1854, furnished through the courtesy of Manager W. J. Gilpin of the New York Clearing House Association, appear:

CLEARING-HOUSE ASSOCIATIONS IN THE UNITED STATES.

Evidence of increased activities in connection with the enormous business transacted by the clearing houses of the United States is shown by the comparative statement of the exchanges of these clearing houses for the years ended September 30, 1921 and 1922, referred to in the preceding paragraph.

Although the number of associations was decreased from 216 in 1921 to 204 in 1922, the aggregate clearings during the year ended September 30, 1922, were \$380,492,992,000, or an increase of \$5,667,611,000 over the clearings for the year ended September 30, 1921.

In connection with the activities of the clearing houses throughout the United States for the year ended September 30, 1922, it is interesting to note, by reference to the following statement, the volume of transactions of the clearing houses in the 12 Federal reserve bank cities, and in other principal cities throughout the country where the transactions amounted to one billion dollars or more, that the net increase in the clearings of associations in the 12 Federal reserve bank cities for the year ended September 30, 1922, over September 30, 1921, was \$7,012,825,000, while the reduction in the transactions of associations in 16 other principal cities was \$1,391,287,000. The transactions of associations in 176 other cities, however, were increased during the year ended September 30, 1922, \$46,073,000.

Comparisons of the transactions of Clearing House Associations in the 12 Federal reserve bank cities and in other cities with transactions of \$1,000,000,000 in the years ended Sept. 30, 1921 and 1922.

BANKS IN THE DISTRICT OF COLUMBIA.

On June 30, 1922, there were 72 banks or institutions doing a banking business in the District of Columbia, under the supervision of the Comptroller of the Currency. The aggregate capital of these institutions was \$21,614,000, the total individual deposits \$200,567,075, and aggregate resources \$268,376,755. The increase in the capital of these institutions during the fiscal year was \$649,000, the increase in individual deposits \$15,916,075, and the increase in resources \$21,055,755.

Information referred to with respect to each class of institutions is shown in the following statement:

EARNINGS, EXPENSES, AND DIVIDENDS OF SAVINGS BANKS AND TRUST COMPANIES IN THE DISTRICT OF COLUMBIA.

Evidence of a prosperous year for savings banks and trust companies in the District of Columbia is manifested by a comparison of the earnings, expenses, and dividends of these banks, shown in the following statement for fiscal years ended June 30, 1921 and 1922.

In the fiscal year ended June 30, 1922, the gross earnings of these banks amounted to \$6,754,000, and show an increase of \$312,000 over gross earnings for the prior year. Interest and discount collected amounted to \$5,272,000, as compared with \$5,258,000 for the previous year. Profit on foreign exchange, commissions, and earnings from insurance premiums, etc., amounted to \$169,000, compared with \$98,000 for 1921, while exchange and collection charges were \$4,000 in excess of the amount earned in the previous year, and amounted to \$25,000.

The expenses of these banks during the year amounted to \$4,783,000, an increase of \$346,000 over the previous year. The largest item charged against expense was on account of interest on deposits, amounting to \$1,695,000, and the next largest item was incident to salaries and wages paid, to the amount of \$1,514,000. Interest and discount on borrowed money amounted to \$63,000. Taxes were paid to the amount of \$623,000 and other miscellaneous expenses totaled \$888,000. Net earnings for the year, with the addition of \$110,000 recovered on charged off assets amounted to \$2,081,000, compared with \$2,050,000 for the previous fiscal year.

During the last year \$155,000 was charged off by these banks on account of loans and discounts, \$135,000 on account of bonds and securities, \$7,000 on account of foreign exchange and other losses to the amount of \$136,000, making a total of \$433,000, which amount deducted from the net earnings of \$2,081,000 leaves a net addition to the profits of these banks of \$1,648,000, or \$207,000 in excess of the net addition to profits during the prior year.

The amount of dividends declared during the fiscal year ended June 30, 1922, was \$1,092,000, compared with \$1,037,000 for the fiscal year ended June 30, 1921.

BUILDING AND LOAN ASSOCIATIONS IN THE DISTRICT OF COLUMBIA.

On June 30, 1922, there were 22 building and loan associations in the District of Columbia, with aggregate resources of \$34,879,000, the activities of which are under the supervision of the Comptroller of the Currency, in accordance with the provisions of the act of March 4, 1909.

Reports for the 6 months period ended June 30, 1922, show that these associations had borrowing members to the number of 13,501, compared with 12,786 for the six months ended June 30, 1921, and nonborrowing members to the number of 35,754, compared with 34,873 last year. The rate of interest paid by borrowing members for accommodations extended was 6 per cent. The total operating expenses for the six months ended June 30, 1922, were \$185,200.89, of which amount \$110,973.25 was on account of salaries paid officers and other employees. These items of expense compare with \$182,162.46 and \$103,598.24, respectively, for the 6 months period ended June 30, 1921. Fifteen associations operate on the permanent plan, 6 on the serial plan, and 1 operates on the terminating plan. Nineteen associations require installment payments of \$1, two associations, \$2, and one association, \$2.50.

Supplementary reports received from these associations show that during the year ended June 30, 1922, loans to the amount of \$1,434,000

were made in connection with 279 transactions incident to the building of homes; 2,508 loans amounting to \$8,610,000 were made for the purpose of purchasing homes already built; and 525 loans, amounting to \$387,000, were made for the purpose of enabling persons accommodated to make improvements on real estate already acquired.

By reference to the following statement it will be noted that the loans of these associations have increased since June 30, 1909, from \$13,511,587 to \$33,233,000 June 30, 1922; installments on shares have increased in this period from \$11,996,357 to \$30,506,000 and aggregate resources from \$14,393,927 to \$34,879,000:

LOAN AND TRUST COMPANIES.

The returns from loan and trust companies for the current year show an increase of 76 in the number reporting over last year. The resources of these companies, amounting to \$8,533,850,000, likewise show an increase over the aggregate for 1921 of \$352,758,000. The returns from loan and trust companies for the current year, however, are more complete than heretofore, which fact is accountable to a certain extent for the increases referred to.

Loans and discounts were increased from \$4,274,581,000 June 30, 1921, to \$4,342,895,000. Overdrafts amounted to \$2,603,000, compared with \$2,541,000 in 1921. Investments in United States Government securities and other miscellaneous bonds, stocks, and securities were increased during the year from \$1,942,676,000 to \$2,311,101,000.

Banking houses, furniture, and fixtures were carried at \$198,267,000, showing an increase over the amount reported in 1921 of \$9,394,000, while other real estate owned was carried at \$38,424,000, compared with \$26,163,000 in 1921.

Balances due from correspondent banks and bankers were increased from \$780,214,000 to \$895,922,000 June 30, 1922. Checks and other miscellaneous cash items, including exchanges for clearing

house, were increased \$84,616,000 during the year and amounted to \$315,381,000.

Cash in vaults of these companies was less by \$55,638,000 than a year ago and totaled \$117,079,000.

Other miscellaneous assets aggregated \$312,178,000, compared with \$562,562,000 in 1921.

Capital stock was increased from \$515,533,000 in 1921 to \$532,-316,000, while in this period surplus was increased from \$537,947,000 to \$562,731,000 and undivided profits from \$111,614,000 to \$117,513,000.

The deposit liability of these companies to other banks and bankers was \$351,547,000, an increase over 1921 of \$32,387,000. The liability on account of certified checks and cashiers' checks outstanding was \$31,109,000 and showed a reduction during the year of \$112,035,000. A decided increase in the amount of individual deposits, which rose from \$5,611,787,000 in 1921 to \$6,495,-928,000, is noted. United States deposits declined during the year from \$100,951,000 to \$13,800,000.

The liability for borrowings incident to the rediscount of notes and bills and bills payable shows considerable reductions. Notes and bills reported June 30, 1921, at \$132,778,000 were reduced to \$42,237,000 and bills payable were reduced in this period from \$173,186,000 to \$61,333,000. Other liabilities amounted to \$325,-336,000, compared with \$534,992,000 in 1921.

PRIVATE BANKS.

Information was received as of June 30, 1922, showing the condition of 673 private banks with aggregate resources of \$185,331,000. Due to the fact that private banks in the States of Connecticut, Texas, Michigan, and Iowa are not under the supervision of the State banking departments, and are under no obligation to furnish the Comptroller's office with statements of condition, the returns from this class of banks, which are estimated to number 1,200 throughout the United States, are incomplete. The returns show a reduction since 1921 of 35 banks, although resources were increased \$10,225,000.

Loans and discounts amounted to \$106,238,000, compared with \$104,285,000 in 1921. Overdrafts were increased during the year from \$727,000 to \$755,000.

Investments, amounting to \$35,270,000, show an increase over June 30, 1921, of \$5,909,000. Banking houses, furniture, and fixtures, valued at \$5,852,000, show an increase of \$2,006,000 in the year, and other real estate owned was reduced from \$7,174,000 to \$5,422,000. Balances due from other banks and bankers aggregated \$23,621,000, compared with \$21,597,000 in 1921. Checks and other cash items, including exchanges for clearing house, were increased from \$710,000 to \$1,006,000 during the year. Cash in bank was reduced from \$4,470,000 to \$4,164,000, while other miscellaneous assets amounting to \$3,203,000 show an increase over 1921 of \$67,000.

Capital stock was reduced to the extent of \$1,281,000 in the year and amounted to \$10,320,000. Surplus was increased by \$2,999,000 and amounted to \$15,368,000, and undivided profits were increased from \$1,956,000 in 1921 to \$2,169,000.

Aggregate deposits, amounting to \$147,191,000, show an increase of \$11,843,000 during the year. Notes and bills rediscounted and bills payable show reductions of \$479,000 and \$3,229,000, respectively, the amount of notes and bills rediscounted being \$1,384,000, while the amount of bills payable was \$4,599,000. Other liabilities, amounting to \$4,500,000, were \$159,000 greater than in 1921.

The condition of reporting private banks, June 30, 1922, is shown in the following statement:

ALL REPORTING BANKS OTHER THAN NATIONAL, STATE, (COMMERCIAL), SAVINGS, PRIVATE BANKS, AND LOAN AND TRUST COMPANIES.

The returns relative to the condition of all reporting banks other than national in the continental United States, referred to in preceding paragraphs, with respect to each class of institutions, were received from the State banking department officials of the several States, who responded generously to the comptroller's requests for this information, and data with reference to banks in the insular possessions and Territories, was supplied through the cooperation of the Bureau of Insular Affairs, War Department, and the office of the Secretary of the Interior.

The combined data as of June 30, 1922, represent the returns from 22,140 reporting banks with aggregate resources of \$29,719,357,000. This shows a reduction of 518 in the number of reporting banks, but an increase in aggregate resources of \$565,829,000.

The reduction in the number of reporting banks is due to the fact that during the last fiscal year, as shown by information at command, there were 364 failures of banks other than national, while of the 245 charters issued to national banking associations during the year, 128 were conversions of State banks. The failure of the guaranty deposit system law in some States to meet the demands made upon it was responsible to some extent for the number of conversions of State banking institutions.

The loans and discounts of all reporting banks other than national totaled \$16,435,991,000, and show a reduction of \$253,218,000 during the year. Overdrafts were reduced from \$71,879,000 in 1921, to \$65,402,000.

The investments of these banks amounted to \$7,984,242,000 and were \$627,400,000 more than in 1921.

Banking houses, furniture, and fixtures, reported at \$625,740,000, show an increase of \$42,234,000 during the year, and other real estate owned was increased from \$101,881,000 in 1921 to \$134,074,000.

Balances on the books of other banks and bankers to the credit of reporting banks were \$2,664,945,000, compared with \$2,409,481,000 in 1921.

Checks and other miscellaneous cash items, including exchanges for clearing house, were \$166,332,000 greater than in 1921, and amounted to \$679,190,000.

The total cash in the vaults of these banks was \$503,711,000 and was \$68,507,000 below the amount reported a year ago. Other miscellaneous assets reported at \$626,062,000 showed a reduction of \$229,592,000.

Capital stock, reported at \$1,636,734,000, was \$6,663,000 greater than in 1921; surplus funds were \$1,648,603,000, compared with \$1,515,776,000 a year ago, while undivided profits were increased to the extent of \$26,821,000 during the year, and amounted to \$441,409,000.

The liability of these banks on account of balances to the credit of correspondent banks was \$742,335,000, showing an increase of \$83,932,000 since 1921, and the liability for certified checks and cashiers' checks outstanding, amounting to \$101,732,000, was \$176,201,000 less than a year ago. Individual deposits to the amount of \$23,929,952,000 show an increase of \$1,491,011,000 since 1921. United States deposits decreased \$115,678,000 during the year and amounted to \$25,513,000.

Liabilities for borrowed money represented by the rediscount of notes and bills and by bills payable were considerably liquidated during the year, the amount of notes and bills rediscounted being only \$155,440,000, compared with \$392,268,000 a year ago, while in this period bills payable were reduced from \$783,028,000 to \$407,083,000.

Other liabilities, amounting to \$630,556,000, were \$270,763,000 less than a year ago.

The following summary shows the combined returns of all reporting banks other than national in the United States and island possessions, June 30, 1922, with classifications of loans, investments, cash, and deposits:

RESOURCES AND LIABILITIES OF ALL REPORTING BANKS IN EACH STATE AND ISLAND POSSESSIONS.

The returns from all reporting banks June 30, 1922, including national, State (commercial), loan and trust companies, stock savings, mutual savings, and private banks, show the condition of 30,389 banks with aggregate resources of \$50,425,367,000. The reduction in the number of reporting banks during the fiscal year was 423, but resources were increased \$753,977,000.

The loans and discounts of these banks were \$27,860,443,000 and show a reduction of \$1,071,568,000 since June 30, 1921. Over-

drafts were reduced during the year \$7,249,000 and amounted to \$74,600,000.

Investments in bonds and other securities amounted to \$12,547,567,000 compared with \$11,381,923,000 a year ago.

Banking houses, furniture, and fixtures were carried at \$1,078,174,000, or \$84,276,000 in excess of the amount in 1921. Other real estate owned was increased \$44,834,000 during the year and amounted to \$198,457,000.

Balances due from other banks and bankers to reporting banks, including lawful reserve and items in process of collection with Federal reserve banks to the credit of national banks and member State banks, aggregated \$5,414,241,000, showing an increase of \$620,036,000 over the aggregate of these balances in 1921. Checks and other miscellaneous cash items, including exchanges for clearing house, were \$1,574,608,000 compared with \$1,290,667,000 a year ago.

The returns from all classes of banking institutions indicate a tendency to carry less cash on hand, the reduction during the past fiscal year amounting to \$116,675,000. The total cash on hand June 30, 1922, was \$829,892,000.

Other miscellaneous assets show a reduction during the year of \$249,262,000, and amounted to \$847,385,000.

Capital stock was increased during the year \$39,989,000 and amounted to \$2,943,950,000. Surplus funds were also increased \$155,377,000 in this period and amounted to \$2,697,409,000, while undivided profits of \$933,843,000 show an increase of \$23,100,000 during the year.

The liability of national banks for circulating notes outstanding June 30, 1922, was \$725,748,000, compared with \$704,147,000 June 30, 1921.

The deposit liability of all reporting banks to correspondent banks and bankers, including the Federal reserve banks, was \$3,244,386,000, or \$434,972,000 in excess of the amount of these balances June 30, 1921.

The liability of all reporting banks incident to the issuance of certified checks and cashiers' checks was \$62,078,000 less than a year ago, and amounted to \$552,505,000.

Individual deposits show an increase of \$2,349,746,000 during the year, the amount reported being \$37,194,318,000. United States deposits were decreased from \$390,230,000 June 30, 1921, to \$128,887,000.

The liabilities of reporting banks for money borrowed, arising from the rediscount of notes and bills payable, show decided reductions during the year. Notes and bills rediscounted were reduced from \$1,271,684,000 to \$435,711,000, and bills payable from \$1,375,591,000 to \$635,564,000.

Other liabilities were \$933,046,000, and show a reduction of \$371,387,000 during the year.

The resources and liabilities of all reporting banks in each State and the island possessions, with the estimated population as of June 30, 1922, and a recapitulation of the aggregate resources and liabilities of each class of banks are shown in the following statement:

DEVELOPMENT OF BANKING INSTITUTIONS IN THE UNITED STATES AND ISLAND POSSESSIONS SINCE JUNE 30, 1914.

The remarkable expansion of banking business in the United States and island possessions since June 30, 1914, a few months prior to the opening of the 12 Federal reserve banks, to June 30, 1922, is reflected in a compilation of returns with respect to the condition of all reporting banks on the two dates named.

In the 8-year period referred to the number of reporting institutions has grown from 26,765 to 30,389, and resources have been increased from \$26,971,398,000 to \$50,425,367,000.

Loans and discounts were increased from \$15,288,357,000 to \$27,860,443,000, and overdrafts from \$51,121,000 to \$74,600,000 in this period.

Investments of these banks were increased more than 100 per cent, or from \$5,584,925,000 to \$12,547,567,000.

Banking houses, furniture, and fixtures show an increase of \$468,478,000, the amount June 30, 1922, being \$1,078,174,000. Other real estate owned was increased from \$129,983,000 to \$198,457,000.

On June 30, 1914, the balances due reporting banks from other banks and bankers were \$2,872,698,000, compared with \$5,414,241,000 June 30, 1922, while miscellaneous checks and other cash items, including exchanges for clearing house, rose from \$520,995,000 to \$1,574,608,000 in this period.

By reason of the provision of the Federal reserve act, which requires national banks and member State banks and trust companies to maintain lawful reserve with Federal reserve banks against demand and time deposits, which became effective subsequent to June 30, 1914, the cash in vaults of these banks was decreased from \$1,639,219,000 on that date to \$829,892,000 June 30, 1922. —

Other miscellaneous assets were \$274,404,000 in 1914, compared with \$847,385,000 in 1922.

Capital stock of \$2,943,950,000 was \$811,876,000 in excess of the amount in 1914, and surplus funds amounting to \$2,697,409,000 show an increase of \$982,923,000 over the 1914 returns. Undivided profits in this period were increased from \$562,032,000 to \$933,843,000.

Balances on the books of reporting banks to the credit of correspondent banks and bankers June 30, 1914, amounted to \$2,705,076,000, compared with \$3,244,386,000 June 30, 1922, and the liability for certified checks and cashiers' checks outstanding was increased from \$270,500,000 to \$552,505,000 between the two dates. Individual deposits show an increase in this period of more than 100 per cent, the amount June 30, 1922, being \$37,194,318,000, an increase of \$18,876,707,000.

National bank circulation was increased from \$722,555,000 to \$725,748,000, while United States deposits increased from \$66,655,000 to \$128,887,000.

The liabilities for notes and bills rediscounted and bills payable were increased from \$38,130,000 to \$435,711,000, and from \$194,431,000 to \$635,564,000, respectively, in this period.

Other liabilities were increased \$685,198,000 and amounted to \$933,046,000.

The percentage of loans and discounts of all reporting banks June 30, 1914, to total deposits was 71.58, compared with 67.75 per cent June 30, 1922.

NATIONAL BANKS, FEDERAL RESERVE AND STATE (COMMERCIAL), LOAN AND TRUST COMPANIES, SAVINGS AND PRIVATE BANKS.

In the fiscal year ended June 30, 1922, the aggregate resources of all reporting banks, including the twelve Federal reserve banks, show a gain of \$416,784,000 over the returns for June 30, 1921. Loans and discounts show a reduction of \$2,251,570,000 during the year, the aggregate for June 30, 1922, being \$28,483,604,000.

The investments of these banks were increased during the year \$1,464,919,000, and amounted to \$13,104,174,000. Cash on hand, amounting to \$3,978,258,000, shows an increase over 1921 of \$406,233,000.

Capital stock was increased during the year from \$3,006,145,000 to \$3,049,028,000; surplus funds show an increase of \$168,739,000 and undivided profits a reduction of \$15,529,000. The latter reduction, however, is largely accounted for by reason of the fact that the item of reserve for Government franchise tax, in the Federal Reserve

Board statement of condition of the twelve Federal reserve banks for the latter part of June, was reduced between 1921 and 1922 from \$40,910,000 to \$2,281,000.

The items of resources and liabilities of reporting banks, and the 12 Federal reserve banks, are shown in the following statement with the aggregate for all banks as of June, 1922:

Statement of the principal items of resources and liabilities of 30,401 reporting banks, including the Federal reserve banks, in the United States and island possessions, June, 1922.

BUILDING AND LOAN ASSOCIATIONS.

"The notable feature of the continued development of building and loan associations last year was the large increase in membership—the greatest ever recorded in a single year," states Secretary H. F. Cellarius, of the United States League of Local Building and Loan Associations in the annual report of the proceedings of the thirtieth annual convention of these institutions. Mr Cellarius further states that—

Eight hundred and forty-seven thousand new members were enrolled in the 9,255 associations actually engaged in business in the United States last year, an increase of over 17 per cent; the total members now number 5,809,888. The resources of these associations are \$2,890,764,621, or net increase for the year of \$370,849,650, or nearly 15 per cent. These results clearly show that the true value of building and loan associations and the real benefits which they confer on their respective communities in encouraging saving and home owning are being recognized and appreciated by the public to a fuller extent than ever before.

Building and loan associations are the only financial institutions which loan practically all their funds available for investment on mortgage security to those desiring to either build or buy homes. The housing shortage, which became acute during the war, has not yet been relieved to any great extent, although building associations have been drawn upon to the fullest for loans for these purposes. Unfortunately the unemployment resulting from industrial conditions last year caused a greater volume of withdrawals than ordinary, and this reduced the amount applicable for mortgage loans. During 1920 the building associations loaned \$770,000,000 for home buying or home owning purposes, but last year only about \$693,000,000 of their funds could be thus invested. As unemployment decreases and the wage earners are again able to save, building associations will be able to correspondingly increase the making of mortgage loans. The current year is showing a substantial improvement in this regard, but it is, in part only, taking care of the pronounced increases in dwelling-house construction now under way.

The more important increases in assets of the several States for 1921 are as follows: Pennsylvania, \$71,884,501; Ohio, \$62,905,954; New Jersey, \$46,106,480; Illinois, \$37,360,342; Massachusetts, \$22,152,397; New York, \$15,490,292; Indiana, \$11,874,043; Oklahoma, \$10,757,888; Louisiana, \$9,728,387; Wisconsin, \$9,358,858; Missouri, \$8,905,362; California, \$8,645,254; Kansas, \$7,720,132; Nebraska, \$6,131,676; and Kentucky, \$5,000,000.

The average amount due each member is \$497.56, as against \$507.75, the amount shown last year.

The secretary also says that—

Attention should be called to a class of associations that have been promoted in the West and Southwest which are claiming to do business in a manner similar to building and loan associations. Their promoters promise to make loans to members at 3 or 4 per cent, and at the same time hold out the hope of a dividend return of from 10 to 12 per cent to their investing members. These companies are not building and loan associations and are not organized as such, but they are seeking to capitalize on their good name. The public should be warned against them. They are organized on fundamentally unsound principles, and it is only a question of time until they will come to grief. A number of State departments supervising building and loan associations have already given attention to these promotions and where State laws permitted have put them out of business. In some States, however, additional legislation will be required to properly protect the public.

UNITED STATES POSTAL SAVINGS SYSTEM.

Through the courtesy of the Third Assistant Postmaster General, Post Office Department, under whose supervision the Postal Savings System is operated, this bureau is enabled to present the following information, showing the resources and liabilities of the postal savings on June 30, 1922, and June 30, 1921, together with the increase or decrease in the various items entering into the service during the period covered by the report, as well as related data.

A comparison of the report for the years 1921 and 1922 shows a decrease of \$13,973,263.76 in the resources and liabilities for the last fiscal year, or a reduction of 8.76 per cent.

There was a decrease in each of the following funds in the amounts shown: Working cash deposited with banks and postmasters, \$4,522,240; special funds deposited with the Treasurer of the United States on account of returnable deposits fund and bond investment fund, \$89,674.16; accounts receivable, being accrued interest on bond investments and amounts due from late postmasters, including credits temporarily withheld, \$151,390.78; investments, carried at cost price, in United States 4½ per cent third and fourth Liberty loan bonds, \$13,082,357.14, or a total gross decrease of \$17,845,662.08.

The funds in which there were increases are as follows: Special reserve fund, \$3,063,177.30; accounts receivable, being amounts due from discontinued depository banks, \$1.02; investments, carried at cost prices, in 2½ per cent postal savings certificates, \$809,220, making a total gross increase of \$3,872,398.32, or, as stated, a net decrease of \$13,973,263.76.

There was, incidentally, a corresponding decrease of \$13,973,263.76, in the liabilities, or a reduction of 8.76 per cent. There was a decrease of \$14,653,464 in the amount due depositors on account of outstanding principal, represented by certificates of deposit, while the decrease of surplus funds, being the interest and profits (undistributed earnings) subject to future allocation of maturing interest charges, was \$3,141,738.32, or a gross decrease of \$17,795,202.32. There were increased liabilities on account of interest payable on certificates of deposit and outstanding savings stamps amounting to \$76,088.28, while the accounts payable showed an increase represented by interest and profits due postal service in the sum of \$3,745,850.28, making a total increase of \$3,821,938.56, hence a net decrease of \$13,973,263.76.

There was a decrease in the interest-bearing resources of \$4,489,641.38 on account of a reduction in the working cash in depository banks, and \$12,273,137.14 because of a reduction in investments, carried at cost, or a total decrease of \$16,762,778.52. There was a corresponding decrease in the liabilities, \$14,653,464 of which being represented by the outstanding principal due depositors, while the difference between the excess of resources in 1921 and the excess of liabilities for 1922 amounted to \$2,109,314.52, or a total decrease of \$16,762,778.52.

The interest and profits for the fiscal year ended June 30, 1922, show a very gratifying increase. While there was a decrease of \$935,239.22 on account of interest on bank deposits, the interest on bond investments increased \$1,296,815.53, miscellaneous receipts \$316.19, and profits realized on sale of investments \$389,550.30, total gross increase of \$1,686,682.02, or an apparent net increase of \$751,442.80. There was, however, an increase in the debits of \$32,573.98 on account of interest credited to depositors, and allowances to postmasters because of losses by fire, burglary, etc., erroneous payments, uncollectible items, etc., and miscellaneous losses amounting to \$1,009.70, making a total increase of \$33,583.68, or a gross profit of \$717,859.12.

The following comparative tables show in detail the various items entering into the operation of the Postal Savings System, together with the changes that have occurred during the last fiscal year.

SCHOOL SAVINGS BANKS.

In 1885 Prof. J. H. Thiry introduced the school savings system in this country, Long Island City, N. Y., being the location of his initial efforts. His interest in the work was continued until his death in 1911 and thereafter was carried on by Mrs. Sarah S. Oberholtzer, of Philadelphia, until taken up by the savings bank division of the American Bankers' Association.

In 1910, according to Mr. Thiry's last report, there were in operation school savings banks in 530 schoolhouses, with 16,488 depositing pupils having \$721,732.18 to their credit.

Notable development of the system is evident from the data appearing in the third annual report, 1921-22, of the American Bankers' Association.

It appears that school savings banks have been established in about 5,000 school buildings in towns and cities throughout the country. The enrollment in these schools aggregated 2,206,132 and the number of participants (depositors) 1,295,607, or 60 per cent of the enrollment. Deposits during the last year exceeded five and one-half millions of dollars and the balance due on June 30, 1922, was \$6,518,171, with interest credited to the amount of \$145,554. Development of the activities of the school savings system from 1919-20 to 1921-22 is shown in the following table.:

| Year. | Parti- pants. | Bank balances. |
|--------------|------------------|-------------------|
| 1919-20..... | 462,651 | \$3,891,495 |
| 1920-21..... | 802,906 | 4,434,875 |
| 1921-22..... | 1,295,607 | 6,518,171 |

In lieu of a staff of officers—tellers, bookkeepers, and cashiers—having charge of the work, there has been installed in some city schools a metal mechanical device, on the order of the cash register, in which there are slots for the reception of each denomination of coins. As a coin is dropped in, there is an automatic release of an adhesive stamp representing the value of the coin. The pupil affixes the stamp to a folder which is retained by him, until his credits on the folder equal \$1. In the meantime arrangements have been made with a local savings or commercial bank to collect daily, or as often as may be deemed advisable, the contents of the receptacle, which are credited on the books of the bank to the particular school or mechanical device whence taken until the pupil presents his folder with the dollar credit, when a personal account is opened with him. It is claimed that the necessary safeguards are provided for the receptacles and their use.

The following table compiled from information furnished by the savings bank division of the American Bankers' Association, shows the activities in connection with the school savings banking in the several States:

FEDERAL FARM LOAN SYSTEM.

At the close of business October 31, 1922, the aggregate assets of the 12 Federal land banks amounted to \$702,649,882.46, an increase over the amount on October 31, 1921, of \$258,435,410.46. In the past year the net mortgage loans of these banks were increased from \$400,985,000 to \$605,987,000, and investments in United States Government securities were increased from \$30,226,000 to \$67,689,000. Cash on hand and in banks was reduced from \$18,917,000, to \$11,672,000. Banking houses, furniture, and fixtures were increased from \$304,000 to \$656,000 during the year.

The capital stock of these banks was increased \$8,170,463, and amounted to \$35,256,730. In capitalizing these banks, national farm loan associations subscribed for \$30,866,995, United States Government \$4,264,880, and the agents of borrowers and individual subscribers, \$124,855. The undivided profits of these banks were \$4,471,000 compared with \$2,165,000 in 1921. A special reserve from the earnings amounted to \$2,533,000 compared with \$1,515,000 in 1921, and the amount of surplus was \$300,000.

The obligations of these banks incident to the issuance of farm loan bonds, on October 31, 1922, amounted to \$641,208,000, and the amount of accrued interest on farm loan bonds was \$14,328,000. In addition to these liabilities the banks had notes payable aggregating \$2,200,000. Other liabilities amounted to \$918,000 compared with \$416,000 a year ago.

The net earnings of these banks since organization have amounted to \$11,787,000, out of which dividends have been paid to the amount of \$4,022,000; \$380,000 has been carried to suspense account and other miscellaneous charges have amounted to \$81,000, leaving surplus reserve and undivided profits accounts referred to, aggregating \$7,304,000.

It appears that the original subscription to capital by the United States Government was \$8,892,000, of which amount \$4,627,000 had been retired.

EXPENSES INCIDENT TO MAINTENANCE OF CURRENCY BUREAU AND NET PROFIT DERIVED BY GOVERNMENT FROM TAXES ON NATIONAL AND FEDERAL RESERVE BANK NOTES, FISCAL YEAR ENDED JUNE 30, 1922.

The total expense incident to maintenance of the Currency Bureau during the fiscal year ended June 30, 1922, was \$6,418,861.76, of which amount \$4,698,746.77 was reimbursed to the Government by national banks and Federal reserve banks, and the difference of \$1,720,114.99 was expended from appropriations made by Congress.

That the Currency Bureau is self-sustaining and an excellent revenue producer is evidenced by the fact that during the fiscal year ended June 30, 1922, national banks paid to the Treasurer of the United States, as a tax on circulating notes, \$3,941,461.17, and Federal reserve banks paid \$445,944.01 as a tax on Federal reserve bank notes, making total payments of \$4,387,405.18, or a net profit to the United States Government of \$2,667,290.19 after deducting expenses paid from appropriations by Congress.

The records show that considerable saving was effected during the past fiscal year incident to the ordinary expenses of the bureau. The item of printing and binding was reduced from \$41,768.54 for the fiscal year 1921 to \$21,247.22 for the current year. The expenditure on account of stationery was reduced in this period from \$27,744.61 to \$15,723.77 and expense on account of furniture and labor-saving machines was reduced from \$8,005.91 to \$5,337.29.

An itemized statement of expenses incident to maintenance of Currency Bureau for fiscal year ended June 30, 1922, follows:

CONCLUSION.

No other activity of the Government more directly concerns the interests of the people than the national banking system, representing as it does approximately 35 per cent of the banking power of the United States.

Our national banks are the bulwark of America's financial establishment. Their resources June 30, 1922, the latest date for which comparable figures with other banks are available, were \$20,706,010,000, or 41.06 per cent of the total resources of all reporting banks; and their total deposits were 39.69 per cent of the total deposits of all banks.

The success of the national banks is due mainly to the management of their affairs by competent officers and directors who have generally displayed a desire to comply with the law and to cooperate with the comptroller. It must be remembered, however, that general economic conditions have had their effect on national banks as well as all other financial institutions, necessitating the exercise of great care and prudence in their management. Responsibility, therefore, to a great extent, devolves upon the corps of national bank examiners, and in turn upon administrative officers of the Currency Bureau. That national banks have been well managed is evidenced by the fact that during the fiscal year ended June 30, 1922, the number of failures was only forty one-hundredths of 1 per cent of the total number of reporting banks, and the nominal value of assets of banks placed in charge of receivers was only one-tenth of 1 per cent of the total assets of all reporting banks.

In my last annual report, I called attention to the meager salaries paid officers of this bureau, with particular reference to Deputy Comptrollers Thomas P. Kane and Willis J. Fowler, and recommended increases in their salaries. In renewing this recommendation, the

attention of the Congress is called to the provision of section 5173, Revised Statutes, as follows:

The plates and special dies to be procured by the Comptroller of the Currency for the printing of such circulating notes shall remain under his control and direction, and the expenses necessarily incurred in executing the laws respecting the procuring of such notes, *and all other expenses of the Bureau of the Currency, shall be paid out of the proceeds of the taxes or duties assessed and collected on the circulation of national banking associations under this title.*

In view of this provision of the law, it is respectfully suggested that to increase the salaries to be paid deputy comptrollers will place no additional burden on the Treasury. The net profit to the Government from taxes on national and Federal reserve bank circulation, after meeting all expenses of the bureau for the fiscal year ended June 30, 1922, was \$2,667,290.19. This bureau pays its expenses, earns a large profit to the Government, and ought to be allowed to pay reasonable salaries.

In the appendix of this report will be found condensed statements of the condition of each national bank in the United States at the close of business September 15, 1922; statistics relating in detail to the assets and liabilities of national banks; data relative to the affairs of national banks in charge of receivers; information with reference to the condition of banks under the supervision of the banking departments of the several States; clearing house transactions; and digest of decisions relating to national banks.

Respectfully submitted.

D. R. CRISSINGER,
Comptroller of the Currency.

To the SPEAKER OF THE HOUSE OF REPRESENTATIVES.

APPENDIX

DIGEST OF DECISIONS RELATING TO NATIONAL BANKS.

[The following banking cases include cases reported in volume 257, U. S. Reporter, and volumes 275 to 281, Federal Reporter, together with one case from volume 111, Atlantic Reporter and two New York decisions, not yet reported, one by the Court of Appeals, and one by the Supreme Court of New York.]

CHECKS.

Bank certifying check entitled to disregard subsequent conditional indorsement.

(U. S. D. C., 1921.) Under Oregon Laws section 7831, providing that, when an indorsement is conditional, a party required to pay may disregard the condition, but one to whom the instrument is negotiated holds it or its proceeds subject to the rights of the person indorsing conditionally, where the drawer of a check procured its certification and thereafter indorsed it conditionally, the bank, having paid the check, was not liable to the drawer, though the condition had not been performed. (*Keeler Bros. v. School Dist. No. 25 of Gilliam County, Oreg., et al.*, 276 Fed. Rep. 755.)

Conditional indorsement of check inferred, subsequent to certification, when contrary not alleged.

(U. S. D. C., 1921.) When one drawing a check to its own order, procuring its certification, and subsequently negotiating it under a conditional indorsement, sued to recover its amount from the bank, which had paid it, and the complaint does not allege that the conditional indorsement was prior to the certification, it must be inferred that the indorsement was subsequent to the certification, and that the bank did not become a party to the indorsement. (Ib.)

Bank held not liable for payment of drafts drawn after notification to drawer that renewal of customer's letter of credit had expired.

(U. S. C. C. A., 1922.) Where a bank, after execution of an agreement to honor sight drafts drawn against its customer to a stipulated amount and for a specified time, notified plaintiff that the letter of credit issued to its customer had expired, and that after a renewal of 60 days it had not been extended, the bank was not liable for drafts drawn by plaintiff thereafter. (*Barde Steel Products Corporation v. Franklin Nat. Bank*, 281 Fed. Rep. 814.)

METHOD OF COLLECTING CHECKS BY FEDERAL RESERVE BANKS.

Federal reserve banks can adopt reasonable measures to collect checks deposited with them at par.

(U. S. D. C., 1922.) The Federal reserve banks, in the discharge of their duties with respect to the collection of checks deposited with them at par, and in performing the functions of a clearing house, as authorized by Federal reserve act, sections 13, 16 (Comp. St., secs. 9796, 9799), are empowered to adopt any reasonable measure designed to accomplish these purposes. (*American Bank & Trust Co., et al. v. Federal Reserve Bank of Atlanta et al.*, 280 Fed. Rep. 940.)

Federal reserve bank can present checks at drawee bank by agents.

(U. S. D. C., 1922.) Where the bank on which checks deposited in a Federal reserve bank were drawn refuses to remit by mail without deduction of the cost of exchange, the reserve bank can employ any proper instrumentality or agency to collect the checks from the drawee bank, and may legitimately pay the necessary cost of such service. (Ib.)

Daily collection of two or more checks drawn on same bank is not illegal.

(U. S. D. C., 1922.) The process of the daily collection of checks by a Federal reserve bank in the exercise of its clearing house functions is not rendered unlawful because of the fact that of the checks handled two or more of them may be drawn on the same bank. (Ib.)

Federal reserve banks can publish par clearance list, but not include nonmember banks without consent.

(U. S. D. C., 1922.) It is a legitimate feature of the Federal reserve bank to publish a par clearance list; that is, a list of banks on which checks are drawn that will be collected at par by the Federal reserve banks. But such list should not include the name of any nonmember bank without its consent, since a conclusion may be drawn from the appearance of a bank's name on the par list that it agrees to remit at par. (Ib.)

Federal reserve par clearance list can state that it includes all banks in designated municipality.

(U. S. D. C., 1922.) The Federal reserve bank can include in its published par clearance list the names of towns or cities, with a representation that it will undertake to collect at par checks drawn on any bank, whether member or nonmember, in such town or city. (Ib.)

Payee, who deposited check with bank for collection, could sue other bank, to which check was forwarded for collection for negligence in course of collection.

(U. S. D. C., 1922.) Under a statute authorizing a bank in which a check is deposited for collection "to forward, en route, the same, without delay, in the usual commercial way in use according to the regular course of business of banks," a payee, who deposited check with a bank for collection, held entitled to sue other bank, to which the check was forwarded for collection by the first bank, for damages caused by negligence of the second bank in the course of collection, as against contention that there was no contractual relation between payee and second bank, since under such statute the second bank became the payee's subagent. (*Malloy et al. v. Federal Reserve Bank of Richmond et al.*, 281 Fed. Rep. 997.)

Federal reserve bank, to which check was sent for collection, held not negligent in sending check to drawee bank.

(U. S. D. C., 1922.) In view of regulation made by Federal Reserve Board providing that the board will require member and nonmember clearing banks to authorize its Federal reserve bank to send checks for collection to banks on which checks are drawn, and that except for negligence such Federal reserve bank will assume no liability, it was not negligence for a Federal reserve bank, to which a check had been sent for collection, to mail the check to the bank on which it was drawn. (Ib.)

Drawer's liability held discharged.

(U. S. D. C., 1922.) Where drawee bank, to which the check had been sent for collection by other bank, sent other bank the drawee bank's check on third bank in payment thereof, stamped the check drawn on it paid, charged it to drawer's account, and delivered it to drawer, who had to his credit subject to his check an amount more than sufficient to pay check, the check was paid, and drawer's liability as such was discharged. (Ib.)

Bank to which check was sent for collection held not authorized to accept in payment drawee bank's check on other bank.

(U. S. D. C., 1922.) Bank to which check was sent for collection acted at its peril in accepting in payment of such check drawee bank's check on other bank, having no authority to accept in payment thereof anything other than money. (Ib.)

Federal reserve bank held without authority to require nonmember bank to remit without charging exchange.

(U. S. D. C., 1921.) A State bank, not a member of the Federal reserve bank, held entitled to charge its customary exchange on remittances to the reserve bank of the district, and a practice of the reserve bank to send checks on the State bank received by it for collection to the drawee bank indorsed "for collection only and remittance in full without deduction for exchange," and on their return unpaid to return them to its correspondents, advising them in effect that the checks were dishonored, held unauthorized, and enjoined, where it appeared that such practice was adopted for the purpose of coercing the State bank. (*Brookings State Bank v. Federal Reserve Bank of San Francisco*, 277 Fed. Rep. 430.)

Reserve bank not required to receive for collection checks from nonclearing banks; "may."

(U. S. D. C., 1922.) Federal reserve act, section 13, as amended by act June 21, 1917 (Comp. St. 1918, Comp. St. Ann. Supp. 1919, sec. 9796), providing that any reserve bank may receive for exchange or collection checks, notes, bills, etc., gives to the reserve banks an option to receive such checks on whatsoever bank drawn, within its district, without discrimination as to whether they are members or nonmembers, or have availed themselves of the clearing house privileges afforded by the reserve bank; but the word "may" is not to be construed as "shall," so as to be mandatory, and the requirement of section 16 of the act (sec. 9799), that the banks receive from member banks or Federal reserve banks checks and drafts drawn on their depositors, carries with it no specific power for making exchange or collections. (Brookings State Bank v. Federal Reserve Bank of San Francisco, 281 Fed. Rep. 222.)

Reserve bank has option to collect from nonclearing bank, if it can do so without paying exchange.

(U. S. D. C., 1922.) A Federal reserve bank may at its option receive and collect paper against a bank which is not a member, and which has not availed itself of the reserve clearing privileges, if it can find a way to make such collections without the payment of exchange, which it is prohibited from paying by the proviso to Federal reserve act, section 13, as amended by act of June 21, 1917 (Comp. St. 1918, Comp. St. Ann. Supp. 1919, sec. 9796). (Ib.)

Nonmember banks can charge reasonable exchange on remittances.

(U. S. D. C., 1922.) Banks which are not members of the Federal reserve system, and not governed by the Federal reserve act (Comp. St. 1918, Comp. St. Ann. Supp. 1919, sec. 9785 et seq.), have the right, if they see fit, to charge reasonable exchange on remittances. (Ib.)

Reserve bank can not coerce nonmember bank to remit without exchange.

(U. S. D. C., 1922.) Though a bank which is not a member of the Federal reserve system may, if it sees fit to do so, waive its right to charge exchange on remittances by it, the Federal reserve bank has no right to coerce it to do so. (Ib.)

Evidence held to show coercion by reserve bank to compel remittances without exchange.

(U. S. D. C., 1922.) In a suit for injunction against the Federal reserve bank by a nonmember State bank, evidence held to show that the Federal reserve bank had attempted to coerce the State bank to make remittances without exchange, by presenting checks for payment at the counter which required the bank to keep an unusually large reserve of currency, and by returning checks on which the State bank had refused to make remittance, because they were indorsed to be paid at par to the reserve bank's correspondent, with information they had been dishonored without protest by the State bank. (Ib.)

Injunction not issued against practice discontinued without intention to renew.

(U. S. D. C., 1922.) Where, about the time suit was begun against it, a Federal reserve bank had discontinued its agency for presentation across the counter of checks on a nonmember State bank, and there was no evidence it had any intention to renew such agency, a temporary injunction restraining it from maintaining an agent will not be continued. (Ib.)

Reserve bank enjoined from notifying correspondents that State bank had dishonored without protest.

(U. S. D. C., 1922.) Where a Federal bank sent checks to the State bank on which they were drawn, indorsed as "for collection only and remittance in full without deduction for exchange or collection charges," and the State bank was not required to remit without charge, the practice of the reserve bank in returning such checks to its correspondents with information they had been dishonored without protest by the State bank, and that the correspondents must look to that bank for redress, was erroneous coercion of the State bank, which will be enjoined. (Ib.)

COLLATERAL SECURITIES.

Pledgee of stock without present consideration not a bona fide holder.

(U. S. C. C. A., 1921.) The holder of a certificate of stock of a corporation, who has taken it as security for an existing debt without promise of extension or

other present consideration, is not protected as a purchaser for value, unless the true owner is estopped by some negligence which has enabled the person with whom he had intrusted the stock to perpetrate a fraud on the purchaser. (*Commercial National Bank of Washington, D. C., v. Shriver et al.* In re Mertens et al., 275 Fed. Rep. 12.)

Pledge of stock by donee of bankrupt held ineffective against trustee.

(U. S. C. C. A., 1921.) A bank, which took a certificate of stock as collateral on extension of a note with knowledge that the pledgor acquired the stock by gift from his father against whom a petition in bankruptcy had been filed and of other facts which charged it with notice that the father was insolvent when the gift was made, and that it was a fraud on his creditors, held not to have acquired title as against the trustee in bankruptcy of the father. (Ib.)

DEPOSITS.

Defendant trust company can not plead fraud as against another party only and its interest in a matter ultra vires the corporation.

(U. S. D. C., 1922.) In an action against a trust company on a certificate of deposit, the defendant should not be allowed to answer, alleging a fraud not directly perpetrated on the defendant, but on a third party, and that it was financially interested in the matter, which was ultra vires the corporation. (*Green v. Commercial Bank & Trust Co.*, 277 Fed. Rep. 527.)

When parent bank not liable to depositor in branch bank.

(N. Y. Supp. 1922.) "Where plaintiff deposited money with defendant, which agreed to open an account in plaintiff's name in a branch bank of defendant in Russia, and later all Russian bank funds were confiscated by the Soviet Government, thereby making performance of the contract by defendant impossible, it was held that performance by defendant was excused." (*Boris N. Sokoloff, plaintiff, v. The National City Bank of New York, defendant.*) (Decision rendered Dec. 19, 1922, but not yet reported.)

FORFEITURE OF CHARTER.

Appointment of temporary receiver in suit to dissolve solvent bank is proper.

(U. S. C. C. A., 1922.) In a suit by the Comptroller of the Currency to dissolve a national bank for violation by its officers and directors of the provisions of the national banking laws (Comp. St., sec. 9657 et seq.), the institution of which suit would naturally cause financial embarrassment to the bank, the appointment of a receiver for the bank was not only within the discretion of the chancellor but the exercise thereof was wise and prudent, even though it was not alleged that the bank was insolvent. (*First Nat. Bank of Hagerstown et al. v. Crissinger, Comptroller of Currency*, 279 Fed. Rep. 818.)

Appeal from appointment of receiver dismissed as moot, after he has been discharged.

(U. S. C. C. A., 1922.) An appeal from the appointment of a receiver for a national bank, in a suit to dissolve a bank for violation by its officers of Comp. St., sections 9786, 9831, will be dismissed as moot where the officers and stockholders whose conduct was attacked had sold their interests in the bank, and the receiver had been discharged after returning the property to the purchasers and the suit had been dismissed. (Ib.)

Officers and stockholders of bank have no interest in appeal from appointment of receiver after selling their stock.

(U. S. C. C. A., 1922.) The officers and stockholders of a bank whose misconduct resulted in a suit for dissolution of the bank and appointment of a receiver, have no interest entitling them to maintain an appeal from the appointment of the receiver after they had sold their stock and resigned their offices. (Ib.)

INSOLVENCY AND RECEIVERS.

Under Federal reserve act indorsement of member bank to reserve bank creates primary liability.

(U. S. D. C., 1921.) Under the Federal reserve act, providing that, in case of rediscounted notes "upon which suit is brought, the bank waives presentment, demand, and protest," and that the indorsement of member bank shall "be

deemed a waiver of demand, notice, and protest by such bank as to its own indorsement, exclusively," when a member bank deposits paper with the reserve bank, it is intended that there shall be a primary liability. (Federal Reserve Bank of Minneapolis *v.* First Nat. Bank of Eureka, S. Dak., 277 Fed. Rep. 300.)

Under Federal reserve act, reserve bank has same rights against receiver as against insolvent bank.

(U. S. D. C., 1921.) In an action by reserve bank on notes discounted by a member bank, the appointment of a receiver for the member bank puts the receiver in the same position as the insolvent bank, and plaintiff had the right to make proof of the member's absolute liability on rediscounted paper, and upon proof acquired a vested interest in the trust fund in the hands of the receiver for the creditors. (Ib.)

Debts provable though unmatured.

(U. S. D. C., 1921.) Unmatured debts are provable both in bankruptcy and receiverships. (Ib.)

In proving claims on notes indorsed to reserve bank credits allowable to member bank as set-off.

(U. S. D. C., 1921.) In an action by a reserve bank on an insolvent member's rediscounted notes, that plaintiff's claims matured after the receiver's appointment did not affect the right of set-off, and in proving the claims credits in favor of the insolvent are deducted. (Ib.)

Member bank held chargeable with proceeds of checks forwarded for collection.

(U. S. D. C., 1921.) In view of Federal reserve act, section 16, as to a reserve bank's exercising the function of a clearing house, and the Federal Reserve Board rule requiring that the member bank provide funds to cover at par all checks received from or for the account of the reserve bank, held, that a member bank is absolutely liable to a reserve bank for the proceeds of checks forwarded the member for collection and paid to the member bank. (Ib.)

LIABILITY OF BANK.

National bank held liable for money acquired through fraud of subsidiary.

(U. S. D. C., 1922.) A bank, which organized a subsidiary corporation to handle property it owned, which corporation had no capital or property, except that supplied by the bank, held liable for damages sustained by a purchaser of property from the corporation, which paid the bank for the same, where the property was not as represented and warranted. (Portsmouth Cotton Oil Refining Corporation *v.* Fourth National Bank of Montgomery, 280 Fed. Rep. 879.)

Bonds held purchased outright by banking and bond house, so that State issuing bonds not entitled to accounting by receiver of bond house.

(U. S. D. C. 1921.) Contract between a South American State and a firm of New York brokers and bankers held a contract of purchase by the firm of the bonds of the State, paid for by the firm's opening a credit on their books in favor of the State, so that the relation of debtor and creditor was created, and the State was not entitled to an accounting from the firm or its receiver, as from an agent or trustee. (Beaver Board Companies *v.* Imbrie et al., in re State of Santa Catharina, Republic of Brazil, 275 Fed. Rep. 431.)

NEGOTIABLE PAPER.

Note imports consideration, which may be rebutted.

(U. S. C. C. A., 1922.) Promissory note imports consideration, but between the maker and payee the presumption of consideration may be rebutted by evidence. (Chase *v.* Du Pont National Bank of Washington, D. C., 277 Fed. Rep. 235.)

Proof money was not paid to maker does not rebut presumption of consideration.

(U. S. C. C. A., 1922.) In an action on a note payable to a bank, evidence that the bank credited the amount of the note to the account of a third party does not alone rebut the presumption of consideration for the note, since the note may have been an accommodation note, as defined by Uniform Negotiable Instruments Law, D. C., article 2, sec. 29. (Ib.)

Accommodation note is supported by consideration.

(U. S. C. C. A., 1922.) A note executed by the maker for the accommodation of another, to whom the money is paid by the payee, is supported by consideration. (Ib.)

Bank had not given value for note merely by crediting account therewith.

(U. S. C. C. A., 1921.) A bank does not become a purchaser for value of a note merely by giving credit on its books for the purchase price thereof, but is entitled to avoid defenses only to the extent it had actually paid out the money prior to acquiring notice of the defenses. (*Southern Trust Co. v. Vaughn et al.*, 277 Fed. Rep. 145.)

OFFICERS.

REPRESENTATION OF BANK BY OFFICERS.

Banks chargeable with knowledge of officers.

(U. S. D. C., 1921.) Banks accused in contempt proceedings of having conspired with judgment debtor in obstructing the enforcement of a judgment, and in aiding judgment debtor in removing her tangible property beyond the reach of process, are chargeable with the knowledge, purpose, and intent of their officers. (*Lineker et al. v. Dillon et al.*, 275 Fed. Rep. 460.)

Cashier has authority to bind bank in usual financial business.

(U. S. D. C., 1922.) By the common law, as well as the law of Texas, the cashier of a bank has apparent authority to bind the bank in its usual financial business. (In re Ballard, 279 Fed. Rep. 574.)

OFFICERS, CIVIL LIABILITY OF.

Limitation of actions—State statute applies.

(U. S. Sup. C., 1921.) The State statute of limitations applies to a suit in Federal court by a receiver of a national bank against its former directors to recover for losses sustained by the bank through improper loans and investments and dividends paid out of capital. (*Curtis, Receiver of Atlantic National Bank of Providence, R. I., v. Connly et al.*, 257 U. S. 260.)

Limitation of actions—Fraud—Discovery.

(U. S. Sup. C., 1921.) Such a suit being based on the common-law right of the bank, the statute will not be tolled upon the ground of fraudulent concealment of the cause of action (*Gen. Laws, R. I., 1909, c. 284, sec. 7*) where the bank was put on notice by the entries on its own books.

Where the misrepresentations relied on for suspending the statute of limitations were the entering at their face value upon the books, and in reports made to the comptroller and published, of loans and investments known by the defendant directors to be improper or worthless, *held*: (a) That the bank was chargeable with notice of the parties to whom loans had been made and the specific character of assets; (b) that the representations to be implied from the reports could not be taken as continuing after they had been superseded by later reports; (c) that the misrepresentations of value imported by the valuations on the books were not a concealment of the cause of action after new directors, not in conspiracy with the defendants, came upon the board and knew the facts, since their knowledge was imputable to the bank, even if they also proved unfaithful.

The running of a statute of limitations on a cause of action of a bank against directors will not be suspended by its fraudulent concealment beyond a period in which new directors, performing their duty to learn the bank's affairs, would presumably have discovered it.

The fiduciary relation between a bank and its directors ceased when they left the board. 264 Fed. Rep. affirmed. (*Curtis, Receiver of Atlantic National Bank of Providence, R. I., v. Connly et al.*, 257 U. S. 260.)

OFFICERS, CRIMINAL LIABILITY OF.

Charge of offense by officer of national bank held sufficient.

(U. S. C. C. A., 1921.) Under Federal reserve bank act, section 2 (Comp. St., sec. 9786), requiring every national bank to become a member of a Federal reserve bank under penalty of forfeiture of its charter; a charge that a defendant as an

officer of a national bank falsified its books or embezzled its funds is sufficient, as charging that he was an officer of a "member bank," within Revised Statutes, section 5209, as amended by act September 26, 1918, chapter 177, section 7 (Comp. St. Ann. Supp. 1919, sec. 9772). (*Rheiner et al. v. United States*, 276 Fed. Rep. 803.)

Evidence held to sustain conviction for aiding in misapplying funds of national bank.

(U. S. C. C. A., 1922.) Evidence that defendant caused fictitious drafts to be drawn and sent to the president of a national bank, who in accordance with an understanding between them caused the drafts to be credited at once, before collection or acceptance, to accounts of which defendant, or a corporation in which both were interested, had the benefit, the drafts on maturity being taken up by means of others, the purpose being to obtain loans from the bank without approval by the directors, and with the final result that the bank was illegally subjected to the risk of loss, held to sustain a conviction under Revised Statutes, section 5209 (Comp. St., sec. 9772), for aiding and abetting the president in misapplying funds of the bank. (*De Kay v. U. S.*, 280 Fed. Rep. 465.)

Presenting demurrer merely with naked list of authorities improper.

(U. S. D. C., 1922.) Where demurrers to indictments were interposed, but were presented with merely a naked list of authorities, and with no argument or statement of particular points or propositions, the method of presentation was improper. (*U. S. v. Reece*, 280 Fed. Rep. 913.)

Indictment charging president of national bank with misapplication of funds sufficient, if appropriation and conversion by either president or recipient of funds is shown.

(U. S. D. C., 1922.) An indictment charging the president of a national bank with willful misapplication of funds, in violation of Revised Statutes, section 5209 (Comp. St., sec. 9772), need not show conversion of funds by both the president and the recipient of the proceeds; facts showing an appropriation and conversion by one or the other being sufficient. (*Ib.*)

President of national bank may be guilty of willful misapplication of funds, though not in actual possession.

(U. S. D. C., 1922.) The president of a national bank may be guilty of willful misapplication of the funds of such bank, in violation of Revised Statutes, section 5209 (Comp. St., sec. 9772), though he has not the actual possession, if he has such control and power of management as to direct an application of the funds in such manner and under such circumstances as to constitute a violation of the statute. (*Ib.*)

Test as to certainty of indictment stated.

(U. S. D. C., 1922.) The test as to the sufficiency of an indictment on demurrer for uncertainty is not whether it might have been made more certain, but whether it contains every element of the offense intended to be charged, and sufficiently apprises the defendant of what he must be prepared to meet. (*Ib.*)

Bank president, who causes false entries to be made in reports to Comptroller of Currency, guilty of making false entries in returns to comptroller.

(U. S. D. C., 1922.) President of national bank, who causes false entries to be made in reports to Comptroller of Currency with knowledge of their falsity and with intent to deceive, is guilty of making false entries in returns to comptroller, in violation of Revised Statutes, section 5209 (Comp. St., sec. 9772), though he does not himself make the reports. (*Ib.*)

In absence of countershowning on motion for change of place of trial, presumed that no such showing was available.

(U. S. D. C., 1922.) On motion for change of place of trial to other division of district, supported by affidavits showing hostility and prejudice against defendant in the division in which the prosecution had been commenced, it will be presumed, in the absence of a countershowning, that no such showing was available. (*Ib.*)

Denial of motion for change of place of trial for prejudice, in prosecution of president of insolvent national bank for misapplication of funds, held error.

(U. S. D. C., 1922.) In prosecution of president of insolvent national bank for misapplication of funds and for making false entries in returns to Comptroller of the

Currency, denial of motion for change of place of trial to other division of district, supported by affidavits showing hostility and prejudice to the defendant in the district in which the prosecution had been commenced, held error, in the absence of a countershewing, notwithstanding suggestions of prosecuting attorney that care be taken to exclude as jurors persons from county in which bank was situated, or who had become hostile to defendant because of the bank's failure. (Ib.)

SHAREHOLDERS.

RIGHT OF SHAREHOLDERS TO EXAMINE BOOKS AND LISTS OF SHAREHOLDERS.

Corporations—Right to examine books under the common law exists only in favor of stockholders with proper purpose.

(Me. Sup. Ct., 1920.) At common law the right to examine books of a corporation exists only in favor of stockholders who invoke it for a proper and legitimate purpose. (*Shea v. Sweetser*, 111 Atl. Rep. 579.)

Stockholder has absolute right to inspect books under Revised Statutes of Maine.

(Me. Sup. Ct., 1920.) Under Revised Statutes, chapter 51, section 22, a stockholder has an absolute and unqualified right to inspect the records and stock book of his corporation, and to make copies and minutes; the purpose being immaterial. (Ib.)

Stockholder held not entitled to writ of mandamus to force examination of books merely to secure names of stockholders.

(Me. Sup. Ct., 1920.) Despite Revised Statutes, chapter 51, section 22, giving a stockholder an absolute right to inspect the books of his corporation, a stockholder, who has purchased his small block of shares merely to enable him to examine the books and obtain a list of other stockholders to attempt to sell them other stock, is not entitled to mandamus to enforce his right to inspect the company's books; the remedy being discretionary and not a writ of right. (Ib.)

Hostile stockholder may invoke aid of court to enforce right to inspection of books and record.

(Me. Sup. Ct., 1920.) A stockholder may invoke the aid of the court to enforce his right to inspect the books of the company, under Revised Statutes, chapter 51, section 22, without proof or allegation that his interests require examination of the corporate records, and though his interests may be adverse or his purposes hostile to the corporation. (Ib.)

ASSESSMENTS.

Evidence held to show bank a creditor of another bank entitled to enforce stockholders' liability.

(U. S. C. C. A., 1921.) Evidence held to show that an agreement by which one national bank took over the assets of another for purpose of liquidation constituted a loan and not a purchase of the assets by the bank receiving them, and that consequently it was a creditor entitled to enforce the liability of the shareholders of the liquidating bank. (*Hightower et al. v. American Nat. Bank of Macon*, 276 Fed. Rep. 371.)

Shareholders' liability being several, any may appeal without joining others.

(U. S. C. C. A., 1921.) In a suit against a bank and shareholders to enforce a debt and shareholders' liability, defendants' liability being several and not joint, decree against them may be appealed from by one or more without joining others. (Ib.)

Bill joining all bank stockholders held not multifarious.

(U. S. C. C. A., 1921.) In a suit under Comp. St. sections 9689, 9806, 9807, to enforce the individual liability of the shareholders of a national bank which has gone into liquidation, the joining of all the shareholders does not render the bill multifarious. (*Benton et al. v. American Nat. Bank of Macon*, 276 Fed. Rep. 368.)

Shareholders of a corporation held proper parties in a suit to enforce stockholders' liability on the stock held.

(U. S. C. C. A., 1921.) In a suit by one national bank against another to enforce shareholders' liability, in which a finance company was made defendant as a shareholder of the defendant bank, it appearing that such finance company had

been dissolved, a petition that certain shareholders of such dissolved company to whom assets of such company had been distributed be made parties defendant was properly granted, their liability being limited to the amount of assets received by them, against the objection that joining them made the bill multifarious and was a misjoinder of parties defendant and that, if they were joined, other stockholders of the dissolved corporation should have been joined. (Ib.)

TAXATION.

Tax on national bank shares held invalid as discriminatory.

(U. S. C. C. A., 1921.) A tax at a rate in excess of 35 mills on the dollar, levied on the assessed value of shares of national and State banks, whereby a State law (Laws N. D. 1917, c. 230) other moneys and credits of citizens are exempt from all taxes, except a 3-mill tax thereby imposed, as to national bank shares is in violation of Revised Statutes 5219 (Comp. St. 9734), prohibiting taxation of such shares "at a greater rate than is assessed upon other moneyed capital in the hands of individual citizens," and is invalid as to the excess above the 3-mill rate, though all other property except such other moneys and credits is taxed at the same rate. (Eddy, County Treasurer, et al. v. First Nat. Bank of Fargo, 275 Fed. Rep. 550.)

A flat rate tax on stock and a tax on income are methods unlike and unequal; and such taxes, therefore, constitute a discrimination against national banks prohibited by section 5219, Revised Statutes.

(N. Y. App. 1922) * * * When it appears on the face of the statute that bank shares are taxed on valuation at a flat rate and that the owner of competing moneyed capital relatively material in amount is taxed on income only, the court is powerless to say that equality of taxation has been secured and injustice prevented. We are forced to compare two methods which are wholly unlike. How can equality be established or presumed as the necessary result of the taxing statutes? In a very considerable number of cases the valuation tax must inevitably be the heavier burden. It is fixed and certain. The income tax is variable and dependent on income and amount of income. It is conceivable that when returns on such capital are low, the bank stock would be taxed and the competing capital would be exempt. In no event would equality exist unless the income on competing capital were large beyond the dreams of avarice and the usual returns on investments. The relator is entitled to the relief asked for. The orders should be reversed and the assessment vacated, with costs in all courts. (People ex rel. Hanover National Bank of the City of New York, appellant, v. Henry M. Goldfogle et al., respondents.) (Decided by New York Court of Appeals on Dec. 12, 1922, but case not yet reported.)

1 This amount represents the net amount due from banks as shown by the reports of those banks whose balances due from exceed the balances due to banks and must be deducted from the amount in the second column in order to prove the apparent amount of liabilities upon which reserve is required, as shown by the individual items of resources and liabilities shown elsewhere in this report. Certified checks and cashiers' checks are now included with amount due to banks in the reserve calculation.

¹ This amount represents the net amount due from banks as shown by the reports of those banks whose balances due from exceed the balances due to banks and must be deducted from the amount in the second column in order to prove the apparent amount of liabilities upon which reserve is required, as shown by the individual items of resources and liabilities shown elsewhere in this report. Certified checks and cashiers' checks are now included with amount due to banks in the reserve calculation.

² The cash in vault (exclusive of national-bank notes) and due from approved reserve agents.

¹ This amount represents the net amount due from banks as shown by the reports of those banks whose balances due from exceed the balances due to banks and must be deducted from the amount in the second column in order to prove the apparent amount of liabilities upon which reserve is required, as shown by the individual items of resources and liabilities shown elsewhere in this report. Certified checks and cashiers' checks are now included with amount due to banks in the reserve calculation.

² St. Louis terminated as a central reserve city and designated a reserve city effective July 1, 1922.

³ Chattanooga terminated as a reserve city, effective Aug. 1, 1922.

¹ This amount represents the net amount due from banks as shown by the reports of those banks whose balances due from exceed the balances due to banks and must be deducted from the amount in the second column in order to prove the apparent amount of liabilities upon which reserve is required, as shown by the individual items of resources and liabilities shown elsewhere in this report. Certified checks and cashiers' checks are now included with amount due to banks in the reserve calculation.

² The cash in vault (exclusive of national bank notes) and due from approved reserve agents.
